No. 4.—*Notification.*—In exercise of the power conferred by sections 6 and 11 of the Canals Act, 1864 (Béngal Act V of 1864), the Governor in Council is pleased to make the following amendment in the schedule of tolls in force on the Calcutta canals and Tolly's Nala and in the rules for the management of navigation thereon, published in notification No. 7, dated the 11th May 1915 (at pages 903-05 of Part I of the *Calcutta Gazette* of the 12th *idem*):—

Amendment.

Delete items 13 and 15 and read item 14 as item 13.

Add as item 14.

14. (1) During the period of closure of the Tolly's Nala at Samnookpota, boats laden with firewood will be allowed to proceed to or from the river Bidyadhari or the Bhangore khal through the Circular or Kristopur Canal and the Tolly's Nala *via* Kidderpore on payment of two rupees per hundred maunds of measured maundage for passage through these canals. All other cargo-boats will pay a rate of one rupee and twelve annas per hundred maunds of measured maundage.

(2) Boats plying under this concession will not be allowed either to load or to unload their cargo along the Circular Canal, the Kristopur Canal, or the river Hooghly. Infringement of this rule will render such boats liable to the ordinary tolls in force for the Circular Canal.

(3) (a) Boats laden with cargo other than firewood may pick up extra cargo, either in the Kristopur Canal, the Circular Canal or the river Hooghly. The toll collectors at Chitpur, Kristopur and Dhappa, respectively, will, in that case, assess and collect the extra toll due on the cargo at twelve annas per hundred maunds, provided the maundage of the boat does not exceed that when it originally entered at Dhappa or Kristopur.

(b) If there is an excess at the time of leaving Tolly's Nala a rate of two rupees and eight annas per hundred maunds will be charged on the extra cargo at Kidderpore. This will entitle the boat to pass beyond Dhappa or Kristopur without any further payment.

(c) If cargo is picked up either in the Hooghly or in the Circular or Kristopur Canal the extra toll on the extra amount will be charged at the rate of one rupee and twelve annas per hundred maunds.

(4) For the purposes of reckoning demurrage charges under item 11 of this schedule on the boats herein defined two extra days will be allowed over and above those provided for vessels plying in the Tolly's Nala.

If the receipts have exceeded the payments, the cash excess shall be sent to the Treasury, unless such excess does not amount to Rs. 25, in which case it may be remitted in the following month; if the contrary, the cash deficit shall be received from the Treasury; in either case, the Cashier will have, after the completion of the transaction, in addition to the balance of peremptory cash transactions, only the Permanent Advance allowed to the Court for carrying on its payments at a distance from the Treasury.

¹ Cancel Rules 7, 58 (a) and 60, Chapter VIII, pages 137, 162 and 163, Volume I, of the High Court's General Rules and Circular Orders, Criminal, and substitute therefor the following:—

"7 The receipts and payments under head (a) must appear in the Court's account in detail, but in the Treasury account in which a personal ledger account only is maintained for this head, the daily totals of receipts and payments made at the Court and the individual items of receipts and payments at the Treasury will appear. All receipts and payments under heads (b) and (c) and (h) above must appear in the Court's accounts and in the Treasury accounts in detail. An account in detail of all receipts under heads (e) to (g) must be kept in the Court, but only the daily totals of each kind of receipts will appear in the Treasury books. All receipts and payments under head (i) will be made on the responsibility of the Cashier, whose security must be sufficient to cover any amount in his hands. They will not appear at all in the Treasury accounts, but the balance in the hands of the Cashier must be noted daily in the cash-book, as well as the balances of any other moneys with which he may be entrusted (e.g., permanent advance, or pay of establishment).

NOTE.—Fractions of a pie are not to be entered in the Court's accounts, and they should neither be received nor paid (High Court proceedings, Civil, August 1898, No. 85).

58. (a) Having initialled the accounts of the day and signed the cash-book, the Judge in charge shall send the pass-book to the Treasury* together with the net amount in cash and a single chalan for the total receipts, and all payment orders, the separate chalans received from parties being retained in the Court. This remittance must be entered in the cash-book as a payment of the day upon which it is made.

NOTE.—As the Treasury does not keep a detailed record of the deposit receipts, it will suffice if the gross receipts are communicated to it with a single chalan.

60. On the last day of the month, and from time to time as occasion may arise (see Rule 13), the Treasury pass-book shall be made up, showing all receipts and payments at the Court since the last remittance to the Treasury†. Its accuracy having been tested, it shall be forwarded to the Treasury with a single chalan for the total receipts and all payment orders, the separate chalans received from parties being retained in the Court. If the receipts have exceeded the payments, the cash excess shall be sent to the Treasury, unless such excess does not amount to Rs. 25, in which case it may be remitted in the following month; if the contrary, the cash deficit shall be received from the Treasury; in either case, the Cashier will have, after the completion of the transaction, in addition to the balance of peremptory cash transactions, only the Permanent Advance allowed to the Court for carrying on its payments at a distance from the Treasury.

NOTE.—As the Treasury does not keep a detailed record of the deposit receipts, it will suffice if the gross receipts are communicated to it with a single chalan.

DACCA, THE 9TH AUGUST 1919.

RESOLUTION—No. 291T.-B.

THE Governor in Council has had under consideration the question of providing a chamber of a size and dignity commensurate with the requirements of the Legislative Council of Bengal, as it will be constituted after the proposed reforms come into operation. While the present Chamber in Government House, Calcutta, has the advantage of a central situation, it is obviously too small for a Council consisting of one hundred members or more; and it is not practicable or convenient to make structural changes in the existing building so as to house a Council of the number contemplated.

It is therefore requisite to prepare plans for a new Council Chamber, *prima facie*, such a building should satisfy the following conditions :—

- (i) it should be large enough to provide for a Council Chamber and all the accessories demanded for the convenience of members, including office accommodation, library, committee-rooms, restaurant and so on ;
- (ii) it should be worthy not only of its use for the Legislative Council, but of the headquarters of the Government of Bengal ;
- (iii) it should be so placed that there will be room for expansion ;
- (iv) and it should be centrally situated so as to be easily accessible to all who will have occasion to use it.

Before proceeding to design a building of the nature required, His Excellency in Council is opinion that the public should have an opportunity of expressing an opinion in the matter of the site which would be most convenient and appropriate. The Governor in Council has therefore resolved to appoint a Committee representative, as far as possible, of all shades of public opinion in Calcutta, to advise Government in regard to the most suitable site. The members of the Committee will be as follows :—

President—The Hon'ble Sir Henry Wheeler, K.C.I.E., C.S.I. Vice-President, Legislative Council.

XIII. Are prisoners in your province subjected to a period of separate confinement as an ordinary incident of a sentence of imprisonment, in accordance with English practice? If so, for how long? Do you approve of the existing rules on this subject, and have you any suggestions to make either as regards those rules or as to the method of carrying out the period of separate confinement?

Special Class of Offenders.

XIV. Are you in favour of creating a division or class of offenders, which should be entitled to special treatment in jails? If so, specify as accurately as possible the offences or classes of offences that you would include in such a division, and the nature of the special treatment that you would advocate.

Classification of Prisoners.

XV. (a) Have you any views to express upon the classification of prisoners into habituals and non-habituals, as at present in force in the jails in your province? Do you think that this or any such classification should be made by the Courts or by the jail authorities?

(b) Would you advocate the collection of habitual offenders, as far as possible, in one or more jails to which casual offenders should not ordinarily be sent?

XVI. Have you any special remarks to offer in regard to the jail rules in force in your province for the treatment of—

- (i) civil prisoners,
- (ii) under-trial prisoners,
- (iii) female prisoners,
- (iv) juvenile prisoners,
- (v) condemned prisoners?

Simple Imprisonment.

XVII. Do you consider it desirable that prisoners, sentenced to simple imprisonment, should be exempt from all labour, or should they be liable to labour, as in England?

Weak-minded Prisoners.

XVIII. Would you recommend any special measures with regard to weak-minded prisoners, and if so, what are your suggestions?

Transportation.

XIX. What is your opinion of transportation as a method of dealing with criminals, with reference to (a) its deterrent effect, (b) its reformatory influence? Do you consider that the system of transportation to the Andamans should be retained, with or without modifications?

Fine.

XX. (a) Are the existing provisions of law and rules relating to the payment of fine in your opinion satisfactory? If not, what changes would you suggest?

(b) In the case of persons sentenced to imprisonment in default of payment of fine and with no substantive sentence of imprisonment, would you advocate that the Courts should be either required or allowed, before the offender is committed to jail, to grant time for payment of fine, and, if so, would you permit such payment to be made by instalments?

XXIII. Do you advocate the adoption in any other respect of the principle of the indeterminate sentence, and if so, in what respect and subject to what rules and conditions?

(b) Would you advocate more extended use of any of the following, namely, elementary general education, instruction in handicrafts, supply

of books for reading, drill and gymnastics, moral and religious instruction? If your answer is affirmative, please explain the methods you would suggest.

Children.

XXVIII. Do you advocate the introduction in India of the system of Children's Courts, as worked in England and the United States, and of the methods of dealing with children brought before those Courts, *e.g.*, binding over, probation, committal to industrial and reformatory schools, etc.? What should be the maximum age under which a young person should be regarded as a child?

F. A. A. COWLEY,

*Secy. to the Govt. of Bengal.***REGULATIONS RELATING TO THE EXAMINATION OF MASTERS AND MATES.**

CHAPTER I.

GENERAL RULES.

1. **Authority for Regulations.**—These regulations are issued in pursuance of Act I of 1859, as amended by Act V of 1883.

By sections 9 and 10 of that Act provision is made for holding examinations for the grant of certificates of competency and power is given to the Local Government with the sanction of the Governor-General of India in Council to make rules for the conduct of such examinations and the qualifications of the applicants.

In accordance with section 13 of the same Act no foreign-going ship* or home-trade ship* of a burden exceeding 300 tons is allowed to go to sea from any port in India, unless the master and one officer besides the master have obtained and possess valid and appropriate certificates either of competency or service under that Act or under the Merchant Shipping Act, 1894, and whoever, having been engaged to serve as Master or Mate, goes to sea as afore-said as such Master or Mate, without being at the time entitled to and possessed of such a certificate, and whoever employs any person as such Master or Mate without ascertaining that he is at the time entitled to and possessed of such certificate is, for each such offence, liable to a penalty of Rs. 500.

2. **Time and place of examinations.**—The times and places at which examinations are held are shown in Appendix A.

3. **How to apply.**—Candidates for examination must fill up a form of application (Form Exn. 2) at the Port Office. The form, properly filled in, together with the candidate's testimonials and discharges, must be lodged with the Port Officer, Calcutta, not later than the day before the day of examination; and the candidate must conform to any regulations in this respect which may be laid down by the Local Government. The discharges and testimonials should be handed in, together with the form of application, as many days as possible before the date of the examination which the candidate desires to attend. In the absence of the necessary verification the candidate cannot be examined.

The Examiner should be particularly careful to ascertain that there are no gaps in the candidate's service which are not properly accounted for, before he is allowed up for examination.

* "Foreign-going ship" includes every ship employed in trading between any port of the territories which are or may become vested in His Majesty by the Statute 21 and 22 Vic., C. 106, entitled "An Act for the Better Government of India," and any port or place not in the said territories, nor on the Continent of India, nor in the Straits Settlements, nor in the Island of Ceylon; and "Home Trade Ship" includes every ship employed in trading between any ports of the said territories, or between any port of the said territories and any port or place on the Continent of India or in the Straits Settlements or in the Island of Ceylon.

4. **How to apply in special cases.**—In cases where a candidate is in doubt whether his service complies with the Regulations, and wishes to submit his case for special consideration, all certificates, discharges, and testimonials, together with the form of application*, properly filled in, should be submitted to the Port Officer. If necessary the officer will, after seeing that all the required information is clearly set forth in the papers, forward them with his observations to the Local Government for decision.

5. **Inquiries.**—All other inquiries regarding examinations should be made and dealt with in the same way. The point on which information is sought should be clearly stated, and certificates, discharges, testimonials, etc., should be forwarded when they are material to the inquiry.

6. **Nature of service determined by actual position on board ship.**—Sea service, in the foreign or home trade, cannot be regarded as qualifying for examination for certificates of competency unless it can be verified by reference to the articles of the ship on which it was performed, *e.g.*, service claimed by testimonial or otherwise to have been as Mate when the actual rating as shown by the articles was only that of boatswain or other petty officer will not be accepted where officer's service is required. Where service as First (or Second) Mate is required to qualify for examination the candidate must actually have held the executive position next (or next but one) to the Master.

Candidates who represent themselves as having served in a higher capacity than that actually held in the ship render themselves liable to prosecution.

In this connection examiners should remember that it has been a common practice for officers to be rated on ship's articles as "Second Mate," although in reality they were only Third or Fourth Mates and acted in one of those positions on board ship.

In every case where a candidate for a Master's certificate of competency claims service as Second Mate, he should be requested to make a declaration in Divn. H of the Form Exn. 2, to the effect that during his service as Second Mate he had only one officer over him, or if more than one, that a Third and Fourth Mate were also carried.

If the service claimed is as "auxiliary Second Mate" the candidate should be required to state the number of officers serving in a junior capacity.

A candidate with First Mate's service should make a declaration that he was the senior officer under the Master, or if not, he must comply with the requirements of rule 84, as it has been found that in some cases the second mate has been signed on the articles as First Mate, the proper First Mate being called chief officer simply for examination purposes.

It must be clearly understood that the amount of service laid down in the Regulations for each grade of certificate of competency is the absolute minimum that can be accepted, and unless a candidate can show the full amount he must in no case be allowed up for examination.

7. **Age.**—Should any doubt exist as to the age of a candidate he will be required to produce a certificate of birth.

8. **Testimonials required.**—Testimonials to character, including sobriety, and to experience and ability, on board ship for at least the last twelve months of sea service preceding the date of application to be examined, will be required of all candidates, and without producing them no person will be examined.

9. **Penalty for misconduct.**—Candidates who have neglected to join their vessels after having signed articles, or who have deserted their vessels after having joined, or who have been found guilty of gross misconduct on board, will be required to produce satisfactory proofs of two years' subsequent service and good conduct at sea, unless the Local Government, after having investigated the matter, should see fit to reduce the time.

10. **Deafness and other physical and mental disabilities.**—If during the progress of the examination the examiner finds that a candidate is afflicted with deafness, with an impediment in his speech, or with some other physical or mental infirmity, and he is satisfied upon further investigation that the degree of deafness or of the impediment or other infirmity is such as to render the candidate incompetent to discharge the ordinary duties of a Mate or Master at sea, he should not allow the candidate to complete his examination and should return his examination fee; but every case in which this action is taken must be reported to the Port Officer.

If the candidate subsequently produces a medical certificate to the effect that his hearing, speech, or physical or mental condition has improved, the Port Officer will take into consideration the question of allowing the candidate to sit again for examination.

11. **Foreigners must know English.**—Foreigners must prove to the satisfaction of the examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel. If a candidate fails for ignorance of the English language he will not be re-examined until after a lapse of six months. In the case of candidates for Home Trade certificates, the certificates of Asiatics who may not be able to speak English shall be endorsed to the effect that they are valid only for vessels manned and officered entirely by Asiatics.

* Form Exn. 2, which can be obtained at Port Office.

12. Issue of certificate.—If the candidate passes he will receive a form (Form Exn. 16) authorising the Port Officer to whom it is addressed to issue the certificate. It is, therefore, important that the port at which the certificate is to be issued should be the same on both the form Exn. 16 and the form Exn. 2. If circumstances should make any alteration necessary, the examiner should see that it is made in both forms, otherwise delay in the issue of the certificate may be caused.

13. Service found to be insufficient.—If after a candidate has passed the examination it is discovered on further investigation that his services are insufficient to entitle him to receive a certificate of the grade for which he has passed, the certificate will not be granted to him; but if the Local Government is satisfied that the error in the calculation of the candidate's services did not occur through any fault or wilful misrepresentation on his part, he may either have the fee returned to him or have it placed to his credit. Should his services entitle him to a certificate of a lower grade it may be granted to him, and the difference, if any, between the fee paid by him for the superior certificate and the fee payable for the inferior certificate will be returned to him or placed to his credit. The superior certificate will not be granted until the candidate has performed the amount of service in which he was deficient, and has been re-examined in all the subjects, unless the Local Government see fit to dispense with the re-examination.

14. Failure in Examination.—In all cases of failure the candidate must be examined anew. If a candidate fails in Seamanship he will not be re-examined until after a lapse of six months. Whether the whole or part of this period must be served at sea must depend upon the subjects in Seamanship in which the candidate failed, but the amount of further sea service to be required will be left to the discretion of the examiner.

15. Examiner's Report.—The examiner, in making his report on the form Exn. 14, should state what amount, if any, of further sea service the candidate must perform, and he should also insert this information in the form Exn. 2.

16. Failure in Navigation.—If a candidate fails three times in Navigation within three months, he will not be re-examined until after a lapse of three months from the date of the last failure.

17. Failure in Extra Examinations.—Candidates for Extra certificates will not be allowed to present themselves for examination more than three times within a period of twelve months.

18. Candidates failing may be examined for certificate of lower grade.—If a candidate fails in his examination for an Ordinary certificate, and the subjects in which he has failed are not included in the syllabus prescribed for a certificate of a lower grade, he may, if he so desires, be examined for the lower grade certificate without further formal application or payment of fee, but he will be required to complete the whole of the work prescribed for such lower grade.

If a candidate fails for the Extra certificate, he may also, without further formal application or payment of fee, proceed with the examination for the Ordinary certificate, but, in this case, the whole of the examination prescribed for the lower grade will have to be completed irrespective of any work which may have been done under examination for the Extra certificate. The subsequent examination for the lower grade may, if time permits, be taken during the current week, but in that case a special set of problems should be supplied to the candidate; should the time be insufficient, the candidate will be allowed to sit at the next following examination.

No part, however, of the fee he has paid will be returned to him, and on presenting himself, when qualified, for re-examination for the higher certificate, he will be required to pay again the full fee for the examinations.

19. Failure in Seamanship.—If a candidate fails in Seamanship so far as regards the management of square-rigged sailing vessels, in his examination for an Ordinary certificate, he may, if qualified as to service, without further formal application or further payment of fee, proceed with the examination for a certificate of competency for foreign-going steamships, or for fore and aft rigged vessels. And if a candidate fails in the same manner in his examination for an Extra Master's certificate, he may, under the same conditions as above, proceed with the examination for an Extra certificate for steamships.

20. Fee always paid first.—Candidates for examination, in making their application on form Exn. 2, will be required to pay the examination fee before any step is taken in the way of inquiring into their services or testing their qualifications. If the candidate is found not to be eligible the fee will either be returned to him or placed to his credit until he is eligible.

21. Where to pay fees.—The fee for examination must be paid to the Port Office. If a candidate offers a gratuity to any officer of the Department, he will be regarded as having committed an act of misconduct, and will be rejected, and not allowed to be again examined for twelve months either at the port where the offence was committed, or at any other port.

22. **Fee not returned on failure.**—If a candidate fails to pass the examination no part of the fee will be returned to him.

23. **Table of fees.**—The fees are as follows:—

24. **Copy of Lost Certificate.**—An applicant for a certified copy of a lost Certificate either of Competency or Service, must fill in a form of application, Exn. 23, giving the particulars required, and hand it to the Port Officer of Calcutta. A declaration as to the circumstances in which the certificate was lost must be made by the applicant before the Port Officer who will forward a certified copy of the lost certificate to the applicant.

25. **First Aid to the Injured.**—(a) Every candidate for a Certificate of Competency of any grade as Master or Mate will be required to produce a certificate issued by the St. John's Ambulance Association, the St. Andrew's Ambulance Association, the St. Patrick's Ambulance Association, the British Red Cross Society, the London County Council, the Glamorgan County Council, the Leith Technical College or other approved body or by a Medical Officer of one of His Majesty's ships, to the effect that he has passed examination in First Aid to the injured.

(b) The certificate must be an adult certificate, i.e., obtained by the candidate when sixteen years of age or more, and (except in the circumstances indicated in rule 130) the examination for it must have been passed not more than three years before the date of the examination for the certificate of competency. Certificates issued by the St. John's Ambulance Association more than three years before the examination for a certificate of competency will, however, be accepted, provided that, at the expiration of three years since its issue, the certificate has attached to it the "Voucher" or "Label" of the Association certifying that the holder has passed re-examination in First Aid.

(c) If a candidate does not possess such a certificate of proficiency in First Aid he should apply some time before he wishes to sit for examination for a certificate as Master or Mate to the local secretary of one of the approved Associations, who will inform him of the available facilities for the instruction and examination of candidates in First Aid. A list of the names and addresses of the local secretaries of the Associations is given in Appendix C.

(d) Besides the courses of instruction which are provided on shore at the ports in the United Kingdom, at which examinations for certificates as Master and Mate are held, courses of instruction given by qualified surgeons on board merchant vessels will be accepted by the St. John's Ambulance Association as qualifying the candidate for examination for their certificate of proficiency in First Aid, provided the surgeon certifies that he has followed the syllabus of instruction laid down by the Association.

(e) The St. Andrew's Ambulance Association will also accept instruction by a ship's surgeon on board ship as qualifying a candidate for examination for their certificate of proficiency in First Aid, provided their syllabus is followed. In this case the candidate must previously have enrolled and obtained an attendance card, by applying to the local secretary of the Association, or to the head office at 176, West Regent Street, Glasgow.

(f) It will not be necessary for the candidate for a certificate as Master or Mate in all cases to produce the formal certificate of proficiency in First Aid issued by the Associations. In order to prevent delay in proceeding with the examination for the certificate as Master or Mate and in the issue of the certificate to successful candidates, the special Mercantile Marine linen Certificate issued by the St. John's Ambulance Association and duly signed by the Lecturer, the Surgeon Examiner, and the Association's local representative, or, in Scotland, a certificate signed by the Local Examiner of the St. Andrew's Ambulance Association, to the effect that the candidate has passed the examination for a Certificate of proficiency, may be accepted as showing that the candidate possesses the required knowledge of First Aid.

26. Sight Tests.—(a) Every candidate for a certificate of competency must pass the prescribed sight tests before a certificate can be issued to him. If circumstances render it necessary for him to proceed with the examination in navigation and seamanship before undergoing the sight tests, he should be informed that the examination in navigation and seamanship will be cancelled in the event of his failure to pass either of the sight tests.

(b) **Form vision test.**—Every candidate for a certificate must pass the form vision test. If he obtained a certificate of competency before January 1st, 1914, he will only be required to possess half normal vision using both eyes together. Otherwise he must pass a higher standard, viz., normal vision using both eyes or either eye separately.

Any candidate who has obtained his first certificate under these conditions may obtain his higher certificates, provided that he has normal vision using both eyes or either eye separately.

Detailed information with regard to the conduct of the examination and the standards required is contained in Appendix I.

(c) **Colour vision test.**—Every candidate must undergo the colour vision test on every occasion on which he presents himself for examination for his first certificate of competency; but, if he then passes, he will not be required to undergo the colour vision tests on any subsequent occasion.

No person who holds a certificate of competency should be examined in colour vision.

(d) A candidate who fails to pass the prescribed form vision test may present himself for re-examination at intervals of three months. A candidate who fails to pass the colour vision test cannot be re-examined. In the case of a candidate who is referred for further examination the Port Officer will make arrangements for a special examination. It is also open to any candidate who is adjudged to have failed in the colour vision test to appeal to the Local Government, who may, if they think fit, remit the case to a special body of examiners for decision.

(e) The Local Government will repay, at a rate which will be notified to the candidate, the travelling expenses of any candidate who is referred for further examination, as well as the travelling expenses of any candidate who, having appealed against failure, is reported by the Special Examiners to have passed. No payment whatever will be made towards the expenses of candidates who, upon their own application, are examined by the Special

Examiners, and are reported by them to have failed, unless the Local Government consider that the particular circumstances of the case justify such payment.

(f) When a candidate fails to pass the colour vision test, the Examiner will point out to him the conditions under which he can appeal. Appeals are to be made through the Port Officer, and forwarded to Local Government with the Examiner's remarks.

(g) Only Examiners who have themselves passed the colour vision tests are to undertake the local examinations.

(h) The fee paid for examination for a certificate of competency includes the fee of one rupee for examination in form and colour vision, and if the candidate fails to pass those tests, this fee will, with the exception of one rupee, be returned to him.

(i) No additional fee will be charged to any candidate referred for special examination, or for the special examination allowed to a candidate who appeals against failure. If, however, a candidate, who has been reported by the Special Examiners as having failed, is still dissatisfied, it will be open to him, if he so desires, to present himself for a second special examination on payment of a fee of rupees seventy-five, provided that he brings with him a friend to witness the examination.

This second examination will, however, be entirely voluntary, and will form no part of the examination for a certificate of competency. The Local Government will, however, give consideration to the result of such examination in determining whether a certificate shall be granted.

The sight tests are open to all persons serving or intending to serve in the Mercantile Marine or in fishing vessels, and all such persons recommended to take the earliest opportunity of ascertaining whether their vision is such as to qualify them for service in that profession. Any such person, if desirous of undergoing the tests, must make application to the Port Officer, on the form Exn. 2a, and must pay a fee of one rupee.

This fee will be payable on each occasion on which a candidate is examined.

39. Special Regulations relating to the examination of Masters and Mates to apply only where the candidate has served an apprenticeship in an approved sea-going training ship, with a view to promotion in the service of the Company to which the training ship is attached.—(1) The training ship must be a sea-going cargo-carrying square-rigged sailing vessel, and the course of study and practical training which the cadets receive must be approved by the Local Government.

At the end of four years' service in the training ship the cadet will be qualified for examination for a certificate as Second Mate provided (a) he can produce a testimonial to the effect that both his conduct and his ability have given satisfaction during the whole period, and (b) that he has served *at sea* for not less than four-fifths of the time, that is to say, has not spent more than one-fifth of the time in home ports, *cf.* rule 100.

If the cadet has served previously for two years in either the "Conway" or the "Worcester" training ship, this time will be allowed to count as one year's qualifying service (*cf.* rule 97), and he will be required to serve for 3 years only in the Company's training ship before he can be allowed up for examination for a certificate as Second Mate (ordinary).

(2) A candidate who has served for four (or three) years on the training ship may be allowed up for examination for a certificate as First Mate (ordinary) when he has served, whilst holding a certificate as Second Mate, for two years as junior bridge-keeping officer of the watch upon vessels of the Company satisfying certain requirements [see sub-rule (4)]. The words "junior bridge-keeping officer" must be interpreted as meaning the junior of two bridge-keeping officers. Where three officers are on the bridge together, the service of the third does not fall within the scope of the Special Regulations, and his service cannot be accepted as qualifying. All cases where cadets, to whom these special regulations apply, subsequently present themselves for examination for First Mate or Master must be referred to the Registrar-General of Seamen, so that their real position on board vessels of the Company satisfying the requirements of this rule may be verified by reference to the official logs before they are accepted as eligible for examination.

(3) A candidate who has obtained a certificate as First Mate in the above way may be allowed up for examination for a certificate as Master (ordinary) when he has served for eighteen months whilst holding the Certificate as First Mate, as a senior watch-keeping officer upon vessels of the Company satisfying the same requirements [see sub-rule (4)].

If the candidate has served for eighteen months as senior of the junior officers, *i.e.*, the officer next below the junior of the officers in full charge of the watch whilst holding the certificate as First Mate, he may be allowed up for examination for a certificate as Master (ordinary) on the understanding that the certificate as Master would not be issued to him until he had completed twelve months' service as a senior watch-keeping officer, his service in both cases to be performed on vessels satisfying the same requirements [see sub-rule (4)].

(4) The special regulations (sub-rules 2 and 3) in regard to the acceptance of service as qualifying for the examinations for certificates as First Mate and Master shall apply only when the service is performed in the specified capacities upon ocean-going steamers of not less than 8,000 tons gross, making an average speed of 15 knots or upwards and carrying a crew of not less than 130 men, including at least five deck officers beside the Master.

40. In other respects the qualifications for examination for such certificates are the same as for Ordinary certificates.

The examinations for the grades of Second Mate, Only Mate, First Mate, and Master, of fore and aft rigged vessels, will be precisely the same as for the Ordinary certificates, excepting that in seamanship a knowledge of the management of square-rigged vessels is not required.

A certificate for fore and aft rigged vessels will not entitle the possessor to act in any case in which a certificate for square-rigged vessels is required. Amongst square-rigged vessels are classed full-rigged ships, barques, brigs, barquentines, brigantines, and steamships carrying square sails.

A candidate possessing a certificate for fore and aft rigged vessels, and desiring to be examined for an Ordinary certificate must prove that he has served at sea at least one year in a square-rigged sailing vessel, unless he has previously held an Ordinary certificate of a lower grade.

41. Steamship Certificates.—Certificates applying only to steamships are issued to candidates who are either unable to comply with the regulation which requires them to have passed one year in square-rigged sailing vessels or who prove in course of examination that they are ignorant of the management of square-rigged sailing vessels. All the qualifying service prescribed for these certificates may have been performed in steamships.

These certificates will entitle the holders to go to sea as Masters or Mates of foreign-going steamships, but will not entitle them to go to sea as Masters or Mates of foreign-going sailing ships.

There will be no distinction in these certificates between fore and aft rigged steamships and square-rigged steamships.

If the candidate passes the examination a note to that effect will be made upon his certificate.

66. Voluntary Examination in Signalling.—The examination in Signalling as prescribed for candidates for the Extra Master's certificate is open as a voluntary examination to all persons holding, or who have passed for, or who are candidates for, a certificate of competency of any grade.

If the candidate passes, the fact with the date and place of passing will be recorded upon his certificate of competency.

Candidates may be examined at any port where Ordinary examinations are held upon filling up the form of application (Exn. 2) and paying the fee of Rs. 15. (See Appendix D.)

No fee, however, will be charged for this examination if it is taken at the same time as that at which a candidate is examined for any certificate of competency.

67. Voluntary Examination in Steam.—These examinations are provided for the purpose of giving Masters and Mates who are possessed of certificates of competency an opportunity of undergoing a voluntary examination as to their practical knowledge of the use and working of the steam engine. They are conducted under the superintendence of the Port Officer at such times as he may appoint for the purpose.

The examination is open to any person who holds a Certificate of any grade in the foreign or home trade or as Master of his own pleasure yacht. Full particulars of the examination are given in Appendix H.

68. Examination in Steam: how to apply.—Candidates should fill up the form of application (Form Exn. 2) at the Port Office, pay the fee of Rs. 15 and deposit their certificates and testimonials with the Port Officer, who will inform them when and where to attend to be examined. The usual testimonials for sobriety and good conduct for at least the last 18 months preceding the date of application to be examined must be produced.

69. Examination in Steam : endorsement of certificate.—If the candidate passes, form Exn. 15, together with a written report of the examination, should be sent to the Port Officer and the candidate's certificate, together with the form Exn. 2, will be sent to the Local Government; the words "Certified to have passed in Steam," with the date and place of examination, will then be entered on the certificate and its duplicate, and the certificate will be sent to the Superintendent of the Mercantile Marine Office at the port named in the form Exn. 2, and will be delivered to the candidate in the usual manner.

The endorsement of a Master's or Mate's Certificate for "Steam" does not, however, imply that he is qualified to perform the duties of an Engineer.

70. Examination in Steam : failure.—If the candidate fails to pass his Certificate will be returned to him at once, but he may not present himself for re-examination until the expiration of three months from the date of failure.

71. Certificates of Service.—A person who has attained the rank of lieutenant, sub-lieutenant, navigating lieutenant, or navigating sub-lieutenant in His Majesty's Navy or of lieutenant in His Majesty's Royal Indian Marine Service, is entitled to a certificate of service as Master of a foreign-going ship without examination. This certificate will not entitle the holder to go to sea as Master or Mate of a home trade ship.

Certificate of service will be issued by the Board of Trade only. Applications for certificates of service of the Royal Indian Marine must be made on a printed form, Exn. 18, which will be supplied free of charge on application to the Director of the Royal Indian Marine.

Applicants on duty in India should submit their claims to the Director for transmission to the Government of India and the India office. Officers on leave in England should submit their claims to the India office on the printed form which may be obtained from that office.

Applications for certificates of service by officers of the Royal Navy on the active list must be made through their commanding officers, and applications from officers of the Royal Navy on half-pay must be made to the Secretary of the Admiralty, who in either case will forward the application to the Board of Trade.

72. Ambulance Certificates and Government Awards.—An officer in the Mercantile Marine who holds a certificate of proficiency in First Aid to the Injured from the St. John's or St. Andrew's Ambulance Association or some equivalent certificate, can have the fact endorsed on his certificate of competency provided the latter was issued before April 1st, 1908, if the two certificates are forwarded to the President of the Board of Examiners.

Recipients of Government awards can also have the fact stamped on their certificates of competency, if they submit evidence of the award together with their certificate in a similar manner.

CHAPTER III.

RULES FOR ESTIMATING SEA SERVICE.

73. Sea service.—In these Regulations sea service is reckoned from the commencement to the termination of the voyage. The certificates of discharge for service in the foreign trade will generally be accepted as proof of sea service, but certificates of discharge for service in the home or coasting trade must always be sent to the Port Officer for verification. Port Officer and Examiners will be careful to see that these discharges have not been in any way tampered with, and will report any suspicious case to the Local Government.

For all certificates of competency as Master or Mate in the Mercantile Marine, the qualifying service usually required is service performed in ordinary trading vessels. While the Regulations provide for the acceptance in part of certain kinds of non-trading service (e.g., that performed in fishing-boats, yachts, pilot vessels, etc.), non-trading service not specially provided for in the Regulations cannot be accepted as qualifying service unless it has been submitted to the Local Government and their sanction obtained.

74. Sea service for foreign-going certificates.—For foreign-going certificates the term "sea service" means, unless otherwise stated, service performed in foreign-going vessels. (But see rule 131.)

75. Officers' service : Home Trade.—Service in a lower grade than First or Only Mate in the home or coasting trade will not be recognized as officers' service towards qualifying a candidate for examination for a foreign-going certificate.

76. Service in Home Trade.—For Home Trade Passenger ship certificates service in the home or coasting trade is regarded as equivalent to service in the foreign trade; but for Foreign-going certificates it is regarded as only equivalent to two-thirds of the time served in the foreign trade, except in the case of Indian coasting voyages extending beyond a distance of 500 miles from the port of departure in vessels commanded by Masters holding foreign-going certificates, when such service will count as foreign voyages, and will be reckoned as full time; but the time spent in the port of departure or home port will not be allowed to count. In all cases the length of service is deemed to commence on the date of sailing from the port of departure or home port and to end on the date of arrival at the home port. Such service must be vouched for in the Form laid down in Appendix N.

77. **Certificate, meaning of.**—By the word "certificate" is meant a certificate of competency granted by the Board of Trade under the Merchant Shipping Acts, or by the Government of a British self-governing Dominion, Colony, or Possession, under an Order in Council issued in pursuance of the Merchant Shipping Acts.

A list of the Colonial certificates referred to will be found in Appendix M. They are of the same force as the corresponding certificates granted by the Board of Trade.

78. **Colonial local certificates.**—The holder of a Colonial certificate for foreign-going ships not granted under the Merchant Shipping Acts who desires to be examined for an Imperial certificate of the same grade, must prove that he has performed the amount of service required by these Regulations to entitle him to hold such a certificate. He must also produce satisfactory testimonials as to character for at least the last 12 months of sea service preceding his application to be examined.

79. **Foreign-going certificates.**—Where a foreign-going certificate is required in order to qualify a candidate for examination, the certificate may be either an Ordinary certificate, or a certificate for fore-and-aft rigged vessels, or a certificate for foreign-going steamships.

80. **Pilot defined.**—The term "pilot" in these Regulations (*see* rules 33 and 56) means a pilot who is employed in general pilotage, and holds a first class pilot's certificate from some competent authority authorising him to pilot vessels outside harbour and partially smooth water limits. A Hooghly Master Pilot is for the purpose of this rule to be considered as a first class pilot.

81. **Officer's service.**—Officer's service to be recognised as qualifying for purposes of examination must be performed with the requisite certificate as specified in Appendix J. The officer's service performed by men who have been duly promoted during the course of a voyage (*see* rule 85) or who, in consequence of serving in vessels plying between ports abroad, have been unable to obtain the necessary certificates, may, however, be recognised, provided that it is in other respects satisfactory.

82. **Foreign officers.**—Foreign officers who wish to apply for a British certificate of competency must in all cases have performed their qualifying officer's service with the requisite British certificate. The service may have been performed in foreign vessels if the candidate can produce satisfactory testimonials as to conduct and character, and is able to prove that the service has been in the required capacities, and that during the period of service he has held a British certificate of competency of the grade required by the Regulations (*see* rule 86).

83. **In charge of a watch.**—When service in charge of a watch in either the foreign or home trade is specified in the Regulations, candidates for certificates of competency as First Mate must be able to prove that during eight months at least of their service they have kept full regular watch during the whole voyage, i.e., from port to port, which, if in the foreign trade, must amount to not less than 8 hours of each 24 hours' service. Where a candidate can prove eight months of such full service, service performed in cases where watches were doubled at any time during the voyage will be accepted as equivalent to half the same period of full watch-keeping service. No amount of occasional service will, by itself, be accepted as qualifying service. Candidates for certificates of competency as Master will be required to have served during the whole of the time specified by the Regulations, in full charge of a watch, and no service performed under the system of double watches, except as the senior officer, will be accepted as qualifying service for a certificate of this grade. Great care must be exercised by the Examiners and others in regard to such service, and unless the candidate produces a clear and satisfactory testimonial specially setting forth the above facts, from the Master or owner of the vessel in which the service was performed, it must not be accepted.

84. **Additional Mates.**—Service as additional or auxiliary First or Second Mates, in large foreign-going vessels, when, in both cases, Third and Fourth Mates are also carried, will count as First Mate's or Second Mate's service, as the case may be, provided that the candidate was entered on the articles in one of these capacities, and that he produces the necessary certificate (*see* rule 83) showing that he was in charge of a watch or watches during the whole time claimed. (*See also* rule 6.)

85. **Promotion during voyage.**—Whenever a man has, from any cause, been regularly promoted on the occurrence of a vacancy in the course of the voyage from the rank in which he first shipped, and such promotion, with the ground on which it has been made, is properly entered in the articles and in the Official Log Book, he will receive credit for his service in the higher grade for the period subsequent to his promotion.

86. **Evidence as to service in foreign vessels.**—The testimonials of service of foreigners and of British officers and seamen serving in foreign vessels, which cannot be verified by the Port Officer, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged or by some other recognised official authority of that country, or by the testimony of some credible person on the spot having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case will be decided on its own merits, and if the sufficiency of the proofs given appears to be at all doubtful, it must be referred to the Government for decision.

87. **Auxiliary screw ships.**—Service in auxiliary screw whaling ships and in vessels with auxiliary steam power, which use their screws only in calms or during light winds, is considered as service performed in sailing vessels.

88. **Excursion steamers.**—In the case of excursion steamers only such service as can be proved to have been performed at sea will be accepted.

89. **Service as carpenter, sailmaker, cook, steward, etc.**—Candidates whose service has been performed in capacities other than apprentice, midshipman, cadet, ordinary seaman or able seaman—*e.g.*, men who have served as carpenter, or sailmaker, or as cook in small vessels where cooking is only a part of a man's duty—will be required to satisfy the Port Officer that they have during the whole time claimed performed deck duties in addition to their own particular work, and that they have a good knowledge of seamanship. These facts may possibly be proved by the production of satisfactory certificates from the Masters with whom the candidate has served; but such service will only be accepted as equivalent to two-thirds of the time served as ordinary deck hand. Failing satisfactory evidence, the applicant will be required to perform additional service in the capacity of seaman. Service as cook (under other conditions than the above), or as steward, purser, or wireless operator will not be accepted.

90. **Service as seaman or as wireless operator.**—If a candidate has been engaged on articles of agreement as seaman or in any seamen rating and has served both as a seaman and as a wireless operator, the service may be counted as qualifying service in full.

If a candidate has been engaged on articles of agreement as a wireless operator and has served as such, one quarter of the service up to a maximum of twelve months may be counted as qualifying service.

91. **Service in fishing or pilot vessels.**—Service performed exclusively in trawlers and other deep sea-fishing vessels, or in pilot vessels, will not qualify a candidate for examination. He must in addition prove the following service:—

- (a) For a Foreign-going certificate, service for at least 18 months in an ordinary trading vessel in the foreign trade, or the equivalent period, 27 months, in the home or coasting trade.
- (b) For a Home Trade Passenger ship certificate, service for at least twelve months in an ordinary trading vessel in the foreign, home, or coasting trade.

92. **Service in yachts.**—Service in pleasure yachts will be accepted as qualifying service under the following conditions:—

- (a) It must in all cases be verified by satisfactory proofs, which must set forth clearly and in detail the nature and duration of the service claimed; and it must be distinctly understood that only actual sea service will be accepted, and that service in harbour or port is inadmissible.
- (b) Service in foreign-going yachts will be accepted in full; and service performed within home trade limits in sailing yachts of not less than 50 tons net register or in steam yachts of not less than 80 tons gross register will be accepted in the proportion stated in rule 76; but candidates must also show (1) for a Foreign-going certificate, service for at least 18 months in an ordinary trading vessel in the foreign trade, or for the equivalent period, 27 months, in an ordinary trading vessel in the home or coasting trade; (2) for a Home Trade Passenger-ship certificate, service for at least 12 months in an ordinary trading vessel in the foreign, home, or coasting trade.
- (c) Service within home trade limits in sailing yachts of 20 tons net register, or in steam yachts of 40 tons gross register, will be accepted towards qualifying a candidate for a foreign-going certificate as equivalent to half the same time served in the foreign trade, but no amount of such service shall count as more than two years' service in the foreign trade, and no such service shall count as officers' service to qualify candidates for foreign going certificates.
- (d) Service within home trade limits in sailing yachts of not less than 20 tons net register, or in steam yachts of not less than 40 tons gross register, will be accepted at the ordinary rate as qualifying service for Home Trade Passenger Ship certificates, but candidates must prove that they have in addition served for at least 12 months in an ordinary trading vessel in the foreign, home, or coasting trade.
- (e) Service within home trade limits in sailing yachts of less than 20 tons net register, or in steam yachts of less than 40 tons gross register, will not be accepted as qualifying service for any class of certificate.

93. **Service in tugs, War Department vessels, etc.**—Service performed in tugs employed in Channel service or outside partially smooth water limits (*see* Appendix L) may be accepted as sea service for the purpose of qualifying a candidate for a Mate's or Master's certificate for home trade passenger ships only.

Service performed in War Department vessels employed outside partially smooth water limits (*see* rule 96) may be accepted as sea-service to qualify a candidate for a Mate's or Master's certificate for home trade passenger ships only. This service cannot be accepted towards qualifying a candidate for a Foreign-going certificate, unless there should be some very exceptional circumstances, when the case, together with all the candidate's papers, should be submitted to the Port Officer for their consideration.

94. Service in dredgers.—Service in steam hopper barges may, subject to the provisions of rule 96, be allowed to count towards qualifying a candidate for a Mate's certificate of competency for home trade passenger ships, provided the candidate can prove at least two years' service in an ordinary trading vessel in either the home, coasting, or foreign trade. Service in these steam hoppers will not be accepted as officer's service towards qualifying a candidate for a Master's certificate.

95. Service in lightships or engine-room.—Service in lightships or in an engine-room will not be accepted as sea service.

96. Service on rivers.—Service performed on rivers, no matter of what size, and service performed within smooth or partially smooth water limits (*see* Appendix L), will not be accepted.

Where any doubt whatever exists on this point, the candidate will be required to produce a certificate from the Master or owner of the vessel in which the service was performed, before the service can be accepted.

97. Training ships.—Time served on board a training ship will be allowed to count as equivalent to one-half the same time spent in service at sea, up to a limit of two years (*i.e.*, no length of service will be allowed to count as more than one year at sea), provided that the candidate can produce a certificate from the Committee or Captain Superintendent that he has conducted himself creditably and passed a good examination in seamanship so far as it is practised in the training ship, as well as in other matters down to the time of his leaving the ship. Training ship service will not be regarded as equivalent to service in square-rigged vessels.

98. School for nautical training.—Time spent at a school for Nautical Training conducted on premises ashore may be allowed to count in some proportion, not exceeding one-half, as service at sea provided that—

- (a) the school is in receipt of a grant from the Board of Education under the Regulations for Schools of Nautical Training;
- (b) after an inspection by one of their officers the Board of Trade are satisfied that the school gives a training that justifies time spent there being reckoned as part of the necessary qualifying time for a certificate of competency;
- (c) the candidate produces a satisfactory certificate as regards conduct and proficiency from the authorities of the school on leaving it.

The proportion in which time spent at a school conducted on premises ashore will be accepted as qualifying under the above provisions will be decided after inspection by one of the Board's officers, but time spent at the school will never be counted as equivalent to more than one-half of the same time spent at sea, nor will it in any circumstances be taken as equivalent to more than one year at sea.

99. Apprentices.—The *whole* of the time claimed under indentures of apprenticeship will be accepted as actual sea service to qualify under rule 29 for a Second Mate's certificate, provided (a) that the indentures have not been cancelled through some fault of the candidate, but are endorsed by the owner or Master to whom he was bound to the effect that he has performed his service faithfully during the time he remained as apprentice; and (b) that the candidate has served at sea four-fifths of the time claimed, that is to say, has not spent more than one-fifth of the time in home ports.

In cases where an apprentice is qualified for examination before the expiration of his indentures, *e.g.*, where he has had training ship or other sea service prior to being bound, which, together with his actual time as apprentice, makes up the required four years, or where his indentures are for a period of more than four years, a letter from the owner or Master will be accepted in place of the endorsement referred to above.

In the event of the candidate being short of the required four-fifths of the time claimed as apprentice out of the United Kingdom, he will be required to show sufficient additional sea service, either as seaman or junior officer, to make up the four-fifths of the time claimed.

100. Midshipmen and cadets.—The *whole* of the time served as midshipman or cadet under indentures will also be accepted subject to the *same* conditions as those laid down for apprentices; and the same will be the case even when not bound by indentures, provided that the service as midshipman or cadet has been continuous, and that on the date of the termination of the period of service claimed in this capacity the candidate

was on articles of agreement, and that he is able to comply with the requirements laid down in the matter of serving or making up the four-fifths period at sea during the time claimed.

101. Lighthouse tenders.—Service performed in the sea-going steam vessels of the Trinity House, of the Commissioners of Northern Lighthouses, or of the Commissioners of Irish Lights, or in Irish and Scotch Fishery Cruisers, will be accepted as sea service for the purpose of qualifying a candidate for examination for a home trade passenger ship certificate; but for a foreign-going certificate a candidate must show in addition to this service calculated in accordance with rule 76 at least twelve months in an ordinary trading vessel. In order to qualify a candidate for an Ordinary certificate, this twelve months must have been performed in a square-rigged sailing vessel.

102. Service in Royal Navy.—Officers of the Royal Navy are at liberty to apply for certificates of service and to be examined for certificates of competency in the Mercantile Marine, but the Lords Commissioners of the Admiralty have directed that the applications of officers on the active list should be made through their commanding officers, and that the applications of officers on half-pay should be made to the Secretary of the Admiralty, who, in either case, will forward the application to the Board of Trade. In the case of Royal Indian Marine officers, applications for certificates of service should be made on a printed form Exn. 18, which will be supplied free of charge on application to the Director of the Royal Indian Marine. Applicants on duty in India should submit their claims to the Director for transmission to the Government of India and the India Office. Officers on leave in England should submit their claims to the India Office on the printed form which may be obtained from that office.

The conditions on which certificates of service are issued are stated in rule 71.

103. Qualifications required of Naval and Indian Marine Officers.—Officers of the Royal Navy or of the Royal Indian Marine who wish to be examined for certificates of competency in the Mercantile Marine will be required to prove the following service; and if an officer wishes to obtain the Ordinary certificate for foreign-going ships he must prove that at least twelve months of this required period was served under sail alone:—

- (a) For second Mate. The officer must prove four years' service at sea, or that he has attained the rank of acting sub-lieutenant.
- (b) For only Mate. Five years' service at sea.
- (c) For First Mate or Master. The officer must prove that he has attained the rank of sub-lieutenant in the Royal Navy, or of lieutenant in the Royal Indian Marine.

104. Service in Royal Naval Reserve.—Lieutenants, sub-lieutenants, and acting sub-lieutenants of the Royal Naval Reserve who perform sea service on board His Majesty's ships will, if accompanied by a good report, be allowed to count such service as if it had been performed in foreign-going merchant ships, and the service will rank according to the certificate of competency held by the candidate at the time. (*See also rule 132.*)

The time spent in Periodical Training in the Royal Naval Reserve on board sea-going vessels of the Royal Navy, if accompanied by a good report, will be accepted in full, but in the case of Midshipmen, will not count as Officer's service. In the case of service in Harbour ships of the Royal or Colonial Navies, only one half of the time will be accepted as sea service, and no such service must amount to more than one-fourth of the time required for the particular grade of Certificate applied for.

CHAPTER IV.

CONDUCT OF THE EXAMINATIONS.

105. The examinations will begin at 10 a.m. on each day. A regular luncheon interval will be given each day between 1 p.m. and 2 p.m., the *viva voce* and practical parts of the examination being taken at such times as may be convenient. The time allotted for each written part of the examination for each grade of certificate will be as follows:—

SECOND MATE.—Paper on Navigation and Nautical Astronomy, 3 hours; Nautical Astronomy and Trigonometry, 2 hours; Chart work, 3 hours; Essay, 1 hour.

FIRST OR ONLY MATE.—Paper on Navigation and Nautical Astronomy, 3 hours; Nautical Astronomy and Trigonometry, 2 hours; Chart work, 3 hours; Sumner problem, 2 hours; Meteorology paper, 1½ hours.

MASTER.—Paper on Navigation and Nautical Astronomy, 3 hours; Nautical Astronomy and Trigonometry, 2 hours; Chart work, 3 hours; Meteorology paper, 1½ hours; Compass Deviation, 1½ hours; Naval Architecture, 1½ hours; Essay, 2 hours.

HOME TRADE MATE.—Arithmetic paper, 2 hours; Chart work, 3 hours.

HOME TRADE MASTER.—Arithmetic paper, 2 hours; Chart work, 3 hours; Nautical Astronomy and Deviation questions, 3 hours.

106. Candidates to be punctual.—Candidates are required to appear at the examination room punctually at the time appointed.

107. Loose paper and books removed.—Before commencing the examination the tables or desks must be cleared of all scraps of paper or books that are not used in the examination.

108. No strangers admitted.—No person will be allowed in the room during the examination, other than those whose duties require them to be present.
No instructors will be allowed on the premises.

109. Books and papers strictly forbidden.—Candidates are prohibited from bringing into the examination room books or papers of any kind whatever. The slightest infringement of this rule will subject the offender to all the penalties of a failure, and he will not be allowed to present himself for re-examination for a period of three months.

110. All work to be shown.—No candidate will be allowed to work out his problems on waste paper, or to write on the blotting paper supplied for his use in the examination. Violation of this rule will subject the candidate to all the penalties of a failure.

A sheet of blotting paper should be issued to each candidate with the first examination paper, and it must be returned to the Examiner when the last paper is completed each day. The Examiner will be careful to see that the blotting paper has not been used by the candidate in solving his problems, or for conveying information to other candidates.

111. Instruments are provided.—All instruments necessary for use in the examinations are supplied by the Local Government.

112. Leaving room or building.—No candidate may leave the examination room without permission and without giving up the paper on which he is engaged. Under no circumstances will a candidate be allowed to leave the building while the examination is proceeding. Violation of this rule will subject the candidate to all the penalties of a failure.

113. Copying, &c., to be prevented.—Candidates should be so placed as to prevent one copying from the other, and no communication whatever between the candidates should be allowed.

114. Penalty for Copying, &c.—In the event of any candidate being discovered referring to any book or paper, or copying from another, or affording any assistance or giving any information to another, or communicating in any way with another, during the time of examination, or copying any part of the problems for the purpose of taking them out of the examination rooms he will subject himself to all the penalties of a failure, and will not be allowed to be examined for a period of six months.

A candidate guilty of a second offence will not be allowed to be examined until 12 months have elapsed.

115. Injury to books.—If a candidate defaces, blots, writes in, or otherwise injures any book or form belonging to the Local Government, the papers will be retained until he has replaced the damaged book or document. He will not be allowed to remove the damaged book or document, and will be subjected to all the penalties of a failure.

116. Silence.—Perfect silence is to be preserved in the examination room.

117. Penalty for breach of rules.—Any candidate violating any of the regulations, or being guilty of insolence to the Examiner, or of disorderly or improper conduct in or about the room, will render himself liable to the postponement of his examination, or, if he has passed, to the detention of his certificate for such period as the Local Government may direct.

118. Examination papers : how to be dealt with.—The examination papers of candidates must in all cases be sent to the Port Officer for his approval, together with the report of the examination on the Forms Exn. 14 and Exn. 34.

119. Examination in Navigation.—The whole of the written portion of the examination will be taken on the marks system. The candidate will be furnished with sheets of the blank ruled paper (Exn. 30) which is supplied for the purpose, with instructions that he is to work or write only on one side of the paper, and to answer in a clear and legible hand each of the questions on the paper, and to commence each answer by writing down the number of the question to which it relates in the margin. Marks will be allotted for each question, and candidates will be required to obtain 75 per cent. of the total marks in order to pass for an Ordinary Certificate, and 85 per cent. for an Extra Certificate. Papers will not be handed back to candidates for correction.

120. Compass deviation.—In answering questions on the tentative method of compass adjustment, the candidate will be tested by Beall's Compass Deviascope.

121. **Barometer, tides, &c.**—The examination on the barometer, thermometer, and hydrometer, prevailing winds and currents of the globe, trade routes, and tides, will be conducted orally, and the questions asked by the examiner, which will be constantly varied, will be confined to and based on the information given in the text-books mentioned in Appendix K; candidates will be required to have a fair and intelligent knowledge of the contents of those books.

122. **Sextant.**—Particular attention should be paid to the sextant, the examination in which will be conducted orally and practically. Every candidate will be required to measure both vertical and horizontal angles, and will be examined practically as to his knowledge of the adjustments and the use of the various screws; he must be able to read correctly on and off the arc, and must also be able to find the index error both by the horizon and by the sun.

123. **Corrections by tables.**—The corrections by inspection of tables given in some of the works on navigation, *e.g.*, Tables IX, XI and XXI, in Norie's Epitome, will not be allowed; every correction must appear on the papers of the candidates.

124. **Degree of precision required.**—Degree of precision required in the solution of the problems:—

- (a) Candidates are expected to work their problems to the nearest half-minute of arc and to the nearest second in time.
- (b) In interpolating for the correct deviation to be applied in solving the chart questions, it will usually be sufficient if the candidate works throughout with the nearest degree of deviation taken from the deviation card; and even in cases where the deviations may vary but little, the nearest half degree used throughout will be sufficiently precise. It is not necessary that the candidate should waste his time in solving the course to odd minutes, as is sometimes done.
- (c) In calculating the correction to apply to soundings the candidate is not required to work to the exact inch, as is sometimes done. It will be sufficient if he brings his answer within half a foot or so of a precise result.

125. **Candidates may use own method.**—Candidates will be allowed to work out the various problems according to any method they have been accustomed to use.

126. **Supplementary viva voce.**—Candidates will be examined orally as to their knowledge of all their written and worked papers.

127. **No candidate to be examined twice in a week.**—A candidate will not be allowed to undergo examination twice in the same week, unless, under very special and urgent circumstances, the Examiner should see fit to relax this rule. In that case a special set of problems should be supplied to the candidate.

CHAPTER V.

TEMPORARY MODIFICATIONS IN THE REGULATIONS DUE TO WAR CONDITIONS.

128. **Examination of Enemy Aliens.**—So long as the war lasts no subject of an Enemy State will be allowed to present himself for examination for a certificate of competency in the Mercantile Marine or the Sea-fishing Service.

129. **Candidates for Masters' certificates to produce evidence of nationality.**—During the war no man may be examined for a certificate of competency as Master, Extra Master or Master (Home Trade) unless (a) he is a British subject and (b) at the time of his birth each of his parents was a British subject by birth or by naturalisation.

In order to prove that he complies with these conditions every candidate for any of the certificates named must produce to the Examiner his own birth certificate and the birth certificate or certificate of naturalisation of each of his parents. These documents should be lodged with the Examiner at least a week before the day on which the candidate wishes to present himself for examination.

This requirement does not apply to any officer who has been granted a commission in the Royal Naval Reserve since March, 1911, or in the Royal Naval Volunteer Reserve since February 1916.

If in any case there is any doubt whether the candidate complies with the above requirements, the local Examiner will refer the matter to the Principal Examiner.

130. **First Aid Certificates.**—A First Aid certificate which, though otherwise valid, is more than three years old will be accepted during the war if the holder has been prevented from renewing it by reason of the exigencies of the war service.

131. **Service under the Admiralty.**—All service afloat during the war in His Majesty's ships or in auxiliary supply ships or any other ships in attendance on the Fleet

will be accepted in full (subject to the ordinary conditions as laid down in the Regulations) as qualifying sea service for the purposes of the Government's examinations of Masters and Mates.

The Local Government cannot undertake to accept the whole or any definite proportion of service in the Royal Naval Reserve, which is *not* qualifying service in accordance with the Regulations, but they will be prepared to consider sympathetically an application for examination from a candidate who has been prevented by his service in the Royal Naval Reserve from complying fully with the requirements. This may be taken as applying, *i.e.*, to service with a First or Second Mate's certificate but in a rank below that of Acting Sub-Lieutenant.

132. Service in the Royal Naval Reserve: Antedating Certificates.—The Board of Trade have been in communication with the Admiralty with regard to the case of men serving in the Royal Naval Reserve during the war who are prevented by the exigencies of the Service from presenting themselves for examination on completion of the period of qualifying service required by the Regulations. Arrangements have been made whereby if such a person passes the examination for a certificate of competency at a time not remote from the conclusion of hostilities, he may have his certificate antedated to the date on which the period of qualifying service was completed; and service performed after that date, if eligible, will be accepted as qualifying for a higher certificate. No certificate, however, will be antedated to a date prior to that on which the candidate was called out for Active Service.

133. Service in transports: Antedating Certificates.—The arrangements indicated in rule 132 may be extended on certain conditions to men serving in vessels under Admiralty orders who are not in the Royal Naval Reserve. Such persons on applying for their certificates to be antedated will be required to produce a certificate signed or countersigned by the proper authority, showing that they were prevented by the exigencies of the service from presenting themselves for examination on completion of the period of qualifying service required by the Regulations.

For the purposes of the Regulations the proper authority will be :—

- (a) In the case of men serving in His Majesty's commissioned ships, the Commanding Officer.
- (b) In the case of men serving on requisitioned ship or ships employed on Admiralty service, the Director of Transports and Shipping.
- (c) In the case of men serving on ships employed in the service of the Government of India, the Director of the Royal Indian Marine in Bombay and the Captain Superintendent of the Government Dockyard, at Kidderpore, in Bengal.

134. Service in the Army.—The Local Government are anxious that, so far as it is reasonably possible, seamen or apprentices who are at the present time serving in the Army should not be hindered in their ordinary profession; but the Local Government cannot, in the absence of any indication of the probable duration of the war, give a definite undertaking with regard to the extent to which such service could be accepted as part of the service required to qualify for certificates of competency in the Mercantile Marine. The Local Government must have regard to the essential condition that their certificates must testify to actual competency, but they will be prepared in due course to consider sympathetically any application to be examined by a candidate who has been prevented from complying fully with the Regulations owing to his service in the Army.

135. Service under an Auxiliary First Mate.—With reference to rule (c) of the Regulations, the Local Government will accept service as Second Mate while holding a First Mate's foreign-going certificate and performed during the war under an additional or auxiliary First Mate as qualifying service for a Master's certificate, provided that a Third Mate is also carried, and the requirement that there shall be a Fourth Mate will, for the time being, not be insisted upon.

136. Officers and Seamen interned Abroad.—Time spent by officers and seamen interned abroad in attending organised lectures or classes of instruction will be accepted, subject to the following conditions, in lieu of a portion of the qualifying sea service required to qualify them for examination of a certificate of competency :—

- (a) If nine hours a week are spent in attending lectures or classes, five weeks spent in this way will be accepted in lieu of one week's sea service. If eleven hours a week are spent in this way, four weeks will be accepted as one week's sea service. In no circumstances can a remission of more than three months' sea service be made.
- (b) The lectures must form part of a definite course of study bearing on the candidate's profession.
- (c) The candidate must produce a certificate, signed by the Lecturer or by some other recognised officer of the camp, that he has attended regularly and has profited by the instruction given. If possible the candidate should also produce his note books. It is suggested that the extent to which a student has profited should be ascertained by periodical examinations.

The subjects of study which are likely to be of value may be inferred from the syllabus for each grade of certificate given in the Regulations. The course of study need not, however, be confined to the actual subjects or questions specified in the syllabus and should embrace work more advanced and thorough than that necessary to meet the bare requirements of the examinations.

APPENDIX D.

(See Rule 30 and 66.)

EXAMINATION IN SIGNALLING.

The examination in Signalling should in all cases and for all grades commence with an examination in the International Code and be followed by an examination in the British Signal Manual, including Morse Flashing, Flag-waving and Semaphore.

International Code.—Examiners are recommended to frame the examination in the International Code of Signals, upon the instructions and illustrations given at the commencement of Parts I and II of the Signal Book. The information there given will be found sufficient to indicate all the characteristics of the Code.

By the form of the hoist, an observer can at sight understand the nature of any signal he sees flying; the examination should, therefore, tend to elicit a clear knowledge of all the distinctive features of the Code.

With this object in view, the Examiners should question the candidates as to the distinguishing forms of the respective hoists, which will be indicated according as a burgee, a pennant, or a square flag is uppermost, and also with regard to the number of flags, and the position of the Code flag when used in the hoist; making the 1, 2, 3 and 4 flag signals with the flags supplied for the purpose, and varying the signals made, showing 2 and 3 flag signals, with and without the Code flag included, or a Geographical or a Vocabulary signal, the name of a merchant ship or of a ship of war.

As the two latter signals would not be found in the Signal Book, the candidate should know where to find them and how to look them out.

The candidate should:—(a) Be able to read a signal at sight, so far as to name the flags composing the hoist. (b) Know the use of the Code pennant and of the pennants C and D, "Yes" and "No," also of the two burgees A and B, and the square flags S and P, and the flags used to indicate cholera, plague, etc., on board, and the quarantine flag. (c) Be required to signal some word or words not included in the vocabulary of the Code either by letters or by the Spelling Table (page 516) or both. (d) Have a knowledge of the Distant Signals, and of their object, and the different modes of signalling therewith. (e) Know the special Morse signals indicated by certain letters as given on page 550. (f) Have a good knowledge of the Distress Signals and understand the penalty which may be incurred by their improper use.

The International Code is used on board His Majesty's ships, and it has been adopted by all the principal Maritime Powers for their public as well as merchant ships.

British Signal Manual.—Candidates will be expected to know the meaning of any or all of the single flag signals given therein, and the significations of the Pilot Jack when incorporated in a hoist. They should also be required to make or read from the Pilot Jack table a hoist given by the Examiner. Candidates need not be expected to commit the Pilot Jack table to memory, but there should be no hesitation whatever in making or reading a signal. They should also know how to recognise any of the Special Signals given at the end of the British Signal Manual.

Morse Flashing Flagwaving and Semaphore.—Candidates for the Extra Master's certificate and for the voluntary examination in signalling will be required to attain a minimum speed of 12 words a minute in semaphore, 10 words a minute in Morse flashing and 6 words a minute in Morse flagwaving (the average length of a word being taken as 5 letters).

Candidates for other certificates will only be required to attain a speed of 5 words a minute in Morse flashing and flagwaving and 8 words a minute in Semaphore.

In the ordinary examination, it will be sufficient if in Morse flashing a candidate is given a test card and a spelling message of 10 words, in Morse flagwaving a spelling message of 10 words, and in Semaphore a spelling message of 25 words.

In the Extra Master's examination, and in the voluntary examination in signalling, the Semaphore test will be a spelling message of 50 words.

The Morse flashing and flagwaving test will be a test message (see British Signal Manual), followed by a spelling message of 25 words.

The candidate must attain a degree of accuracy of at least 90 per cent. both in making and reading in each method, i.e. Flashing, Flagwaving and Semaphore.

In the examination in Morse flashing and flagwaving the candidate should be first required to make a test message, followed by a spelling message of 25 words. The Examiner should then make a test message, followed by a spelling message of 25 words to be read by the candidate.

The same procedure must be observed in the Semaphore examination, except that, as a test message is not given, the candidate will be required to make a spelling message of 50 words and then to read a message of 50 words made by the Examiner. The Semaphore messages may be made either by hand flags or mechanical Semaphore, or both at the discretion of the Examiner.

In the Morse flashing and flagwaving examination, marks will be allotted for the test message in the proportion of 50-75 of a mark for each correct letter (see table at back of test cards), and for the spelling message 2 marks for each correct word or group of figures. The candidate must for a pass gain an aggregate of at least 90 per cent. of the maximum marks in both spelling and test messages.

In the Semaphore examination 2 marks will be allotted for each correct word and 90 per cent. of the maximum must be obtained for a pass.

The spelling message is left to the discretion of the Examiner, and may be a passage from any book or newspaper in English. When the passage contains figures and the candidate does not choose to spell them out, the Examiner should see that the proper signs are made before and after the figures.

The message as read by the candidate should be taken down by another candidate where possible, otherwise by a clerk, or other person according as the Examiner may deem expedient.

Candidates should be thoroughly tested in the various signs and the procedure of calling up, sending and answering a signal, as laid down in the British Signal Manual, and this course should always be strictly adhered to.

Particular attention should be paid by Examiners to the accurate spacing of the Morse signs, and to the intervals between letters and words, both in flashing and flagwaving, and also to the correct making of the Semaphore signs. Any attempted increase of speed at the expense of accuracy should be discouraged.

The block letter test and spelling message as read by the candidate should be forwarded on the Form Exn. 19a, together with the percentage of marks allotted and report on the Form Exn. 19b to the Principal Examiner, with any remarks the Examiner may have to add with respect to the examination.

Note.—The International Code of Signals with the Signal Letters of British Ships, is prepared by the Registrar-General of Shipping and Seamen, and may be obtained of the publishers, Messrs. Spottiswoode, Ballantyne & Co., 1, New Street Square, London, E.C.4, and the principal booksellers at the various ports, price 6s.

The Official Mercantile Navy List and Maritime Directory may be obtained in like manner, price 12s.

The British Signal Manual may be obtained through any book-seller, or directly from His Majesty's Stationery Office at any of the addresses given on the title page of these Regulations, price 6d.

APPENDIX E.

REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

1. ORDER IN COUNCIL OF OCTOBER 13, 1910.

SCHEDULE I.

Preliminary.

These Rules shall be followed by all vessels upon the high seas and in all waters connected therewith, navigable by sea-going vessels.

In the following Rules every steam vessel which is under sail and not under steam is to be considered a sailing vessel, and every vessel under steam, whether under sail or not, is to be considered a steam vessel.

The word "steam vessel" shall include any vessel propelled by machinery.

A vessel is "under way" within the meaning of these Rules, when she is not at anchor, or made fast to the shore or aground.

Rules concerning lights, etc.

The word "visible" in these Rules, when applied to lights, shall mean visible on a dark night with a clear atmosphere.

Article 1. The rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited.

Article 2. A steam vessel when under way shall carry :—

- (a) On or in front of the foremast, or if a vessel without a foremast, then in the fore part of the vessel, at a height above the hull, of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet, a bright white light, so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz., from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 5 miles.
- (b) On the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.
- (c) On the port side a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 2 miles.
- (d) The said green and red side-lights shall be fitted with in-board screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.
- (e) A steam vessel when under way may carry an additional white light similar in construction to the light mentioned in subdivision (a). These two lights shall be so placed in line with the keel that one shall be at least 15 feet higher than the other, and in such a position with reference to each other that the lower light shall be forward of the upper one. The vertical distance between these lights shall be less than the horizontal distance.

Article 3. A steam vessel when towing another vessel shall, in addition to her side-lights, carry two bright white lights in a vertical line one over the other, not less than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed, exceeds 600 feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light mentioned in Article 2 (a), except the additional light, which may be carried at a height of not less than 14 feet above the hull.

Such steam vessel may carry a small white light abaft the funnel or aftermast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

Article 4. (a) A vessel which from any accident is not under command shall carry at the same height as the white light mentioned in Article 2 (a), where they can be seen, and, if a steam vessel, in lieu of that light, two red lights, in a vertical line one over the other, not less than 6 feet apart, and of such a character as to be visible all round the horizon at a distance of at least 2 miles; and shall by day carry in a vertical line one over the other not less than 6 feet apart, where they can best be seen, two black balls or shapes each 2 feet in diameter.

(b) A vessel employed in laying or in picking up a telegraph cable shall carry in the same position as the white light mentioned in Article 2 (a), and if a steam vessel, in lieu of that light, three lights in a vertical line one over the other, not less than 6 feet apart. The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such a character as to be visible all round the horizon, at a distance of at least 2 miles. By day she shall carry in a vertical line one over the other, not less than 6 feet apart, where they can best be seen, three shapes not less than 2 feet in diameter, of which the highest and lowest shall be globular in shape and red in colour, and the middle one diamond in shape and white.

(c) The vessel referred to in this Article when not making way through the water, shall not carry the side lights, but when making way shall carry them.

(d) The lights and shapes required to be shown by this Article are to be taken by other vessels as signals that the vessel showing them is not under command and cannot therefore get out of the way.

These signals are not signals of vessels in distress and requiring assistance. Such signals are contained in Article 31.

Article 5. A sailing vessel under way, and any vessel being towed, shall carry the same lights as are prescribed by Article 2 for a steam vessel under way, with the exception of the white lights mentioned therein, which they shall never carry.

Article 6. Whenever, as in the case of small vessels under way during bad weather, the green and red side-lights cannot be fixed, these lights shall be kept at hand lighted and ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side nor the red light on the starboard side, nor, if practicable, more than 2 points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

Article 7. Steam vessels of less than 40, and vessels under oars or sails of less than 20 tons gross tonnage, respectively, and rowing boats, when under way, shall not be obliged to carry the lights mentioned in Article 2 (a), (b) and (c), but if they do not carry them they shall be provided with the following lights:—

1. Steam vessels of less than 40 tons shall carry:—

(a) In the forepart of the vessel, or on or in front of the funnel, where it can best be seen, and at a height above the gunwale of not less than 9 feet, a bright white light constructed and fixed as prescribed in Article 2 (a), and of such a character as to be visible at a distance of at least 2 miles.

(b) Green and red side-lights constructed and fixed as prescribed in Article 2 (b) and (c) and of such a character as to be visible at a distance of at least 1 mile, or a combined lantern showing a green light and a red light from right ahead to 2 points abaft the beam on their respective sides. Such lantern shall be carried not less than 3 feet below the white light.

2. Small steamboats, such as are carried by sea-going vessels, may carry the white light at a less height than 9 feet above the gunwale, but it shall be carried above the combined lantern, mentioned in subdivision 1 (b).

3. Vessels under oars or sails, of less than 20 tons, shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which, on the approach of or to other vessels, shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

4. Rowing boats, whether under oars or sail, shall have ready at hand a lantern showing a white light, which shall be temporarily exhibited in sufficient time to prevent collision.

The vessels referred to in this Article shall not be obliged to carry the lights prescribed by Article 4 (a), and Article 11, last paragraph.

Article 8. Pilot-vessels, when engaged on their station on pilotage duty, shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed fifteen minutes.

On the near approach of or to other vessels they shall have their side-lights lighted, ready for use, and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

A pilot-vessel of such a class as to be obliged to go alongside of a vessel to put a pilot on board, may show the white light instead of carrying it at the masthead, and may, instead of the coloured lights above mentioned, have at hand ready for use a lantern with a green glass on the one side and a red glass on the other, to be used as prescribed above.

A steam pilot-vessel exclusively employed for the service of pilots licensed or certified by any pilotage authority or the Committee of any pilotage district, when engaged on her station on pilotage duty and not at anchor, shall, in addition to the lights required for all pilot boats, carry at a distance of eight feet below her white masthead light a red light visible all round the horizon and of such a character as to be visible on a dark night with a clear atmosphere at a distance of at least two miles, and also the coloured side-lights required to be carried by vessels when under way.

When engaged on her station on pilotage duty and at anchor she shall carry, in addition to the lights required for all pilot boats, the red light above mentioned, but not the coloured side-lights.

Pilot-vessels, when not engaged on their station on pilotage duty, shall carry lights similar to those of other vessels of their tonnage.

Article 9.*† Fishing-vessels and fishing-boats, when under way and when not required by this Article to carry or show the lights hereinafter specified, shall carry or show the lights prescribed for vessels of their tonnage under way.

(a) Open boats, by which it is to be understood boats not protected from the entry of sea water by means of a continuous deck, when engaged in any fishing at night with outlying tackle extending not more than 150 feet horizontally from the boat into the seaway, shall carry one all-round white light.

Open boats, when fishing at night, with outlying tackle extending more than 150 feet horizontally from the boat into the seaway, shall carry one all-round white light, and in addition, on approaching or being approached by other vessels, shall show a second white light at least 3 feet below the first light and at a horizontal distance of at least 5 feet away from it in the direction in which the outlying tackle is attached.

(b)† Vessels and boats, except open boats as defined in subdivision (a), when fishing with drift-nets, shall, so long as the nets are wholly or partly in the water, carry two white lights where they can best be seen. Such lights shall be placed so that the vertical distance between them shall be not less than 6 feet, and not more than 15 feet, and so that the horizontal distance between them, measured in a line with the keel, shall be not less than 5 feet and not more than 10 feet. The lower of these two lights shall be in the direction of the nets, and both of them shall be of such a character as to show all round the horizon, and to be visible at a distance of not less than 3 miles.

* This article does not apply to Chinese or Siamese vessels.

† The expression "Mediterranean Sea" contained in sub-sections (b) and (c) of this Article includes the Black Sea and the other adjacent inland seas in communication with it.

‡ Dutch vessels and boats when engaged in the "kol" or handline, fishing will carry the lights prescribed for vessels fishing with drift-nets.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea^a sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they, however, not carry it, they shall show in the same position (in the direction of the net or gear) a white light, visible at a distance of not less than one sea mile, on the approach of or to other vessels.

(c) Vessels and boats, except open boats as defined in subdivision (a), when line-fishing with their lines out and attached to or hauling their lines, and when not at anchor or stationary within the meaning of subdivision (h), shall carry the same lights as vessels fishing with drift-nets. When shooting lines, or fishing with towing lines, they shall carry the lights prescribed for a steam or sailing vessel under way, respectively.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea^a sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they, however, not carry it, they shall show in the same position (in the direction of the lines) a white light, visible at a distance of not less than one sea mile, on the approach of or to other vessels.

(d) Vessels, when engaged in trawling, by which is meant the dragging of an apparatus along the bottom of the sea—

1. If steam vessels, shall carry, in the same position as the white light mentioned in Article 2 (a) a tricoloured lantern so constructed and fixed as to show a white light from right ahead to two points on each bow, and a green light and a red light over an arc of the horizon from two points on each bow to two points abaft the beam on the starboard and port sides, respectively; and not less than 6 nor more than 12 feet below the tricoloured lantern a white light in a lantern, so constructed as to show a clear, uniform and unbroken light all round the horizon.
2. If sailing vessels, shall carry a white light in a lantern, so constructed as to show a clear, uniform and unbroken light all round the horizon, and shall also, on the approach of or to other vessels, show where it can best be seen a white flare-up light or torch in sufficient time to prevent collision.

All lights mentioned in subdivision (d) 1 and 2 shall be visible at a distance of at least 2 miles.

(e) Oyster dredgers and other vessels fishing with dredge-nets shall carry and show the same lights as trawlers.

(f) Fishing-vessels and fishing-boats may at any time use a flare-up light in addition to the lights which they are by this Article required to carry and show, and they may also use working lights.

(g) Every fishing-vessel and every fishing-boat under 150 feet in length, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile.

Every fishing-vessel of 150 feet in length or upwards, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile, and shall exhibit a second light as provided for vessels of such length by Article 11.

Should any such vessel, whether under 150 feet in length, or of 150 feet in length or upwards, be attached to a net or other fishing gear, she shall on the approach of other vessels show an additional white light at least 3 feet below the anchor light, and at a horizontal distance of at least 5 feet away from it in the direction of the net or gear.

(h) If a vessel or boat when fishing becomes stationary in consequence of her gear getting fast to a rock or other obstruction, she shall in daytime haul down the day-signal required by subdivision (k); at night show the light or lights prescribed for a vessel at anchor; and during fog, mist, falling snow, or heavy rain-storms make the signal prescribed for a vessel at anchor. [See subdivision (d), and the last paragraph of Article 15.]

(i) In fog, mist, falling snow, or heavy rain-storms, drift-net vessels attached to their nets, and vessels when trawling, dredging, or fishing with any kind of dredge-net, and vessels line-fishing with their lines out, shall, if of 20 tons gross tonnage or upwards, respectively, at intervals of not more than one minute make a blast; if steam vessels, with the whistle or siren, and if sailing vessels, with the fog-horn; each blast to be followed by ringing the bell. Fishing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the abovementioned signals; but if they do not, they shall make some other efficient sound signal at intervals of not more than one minute.

(k) All vessels or boats fishing with nets or lines or trawls, when under way, shall in daytime indicate their occupation, to an approaching vessel by displaying a basket or other efficient signal where it can best be seen. If vessels or boats at anchor have their gear out, they shall, on the approach of other vessels, show the same signal on the side on which those vessels can pass.

The vessels required by this Article to carry or show the lights hereinbefore specified shall not be obliged to carry the lights prescribed by Article 4(a), and the last paragraph of Article 11.

Article 10. A vessel which is being overtaken by another shall show from her stern to such last-mentioned vessel a white light or a flare-up light.

The white light required to be shown by this Article may be fixed and carried in a lantern, but in such case the lantern shall be so constructed, fitted, and screened that it shall throw an unbroken light over an arc of the horizon of 12 points of the compass, viz., for 6 points from right aft on each side of the vessel, so as to be visible at a distance of at least 1 mile. Such light shall be carried as nearly as practicable on the same level as the side-lights.

Article 11. A vessel under 150 feet in length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear, uniform and unbroken light visible all round the horizon at a distance of at least 1 mile.

A vessel of 150 feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than 20, and not exceeding 40, feet above the hull, one such light, and at or near the stern of the vessel, and at such a height that it shall be not less than 15 feet lower than the forward light, another such light.

The length of the vessel shall be deemed to be the length appearing in her certificate of registry.

A vessel aground in or near a fairway shall carry the above light or lights and the two red lights prescribed by Article 4 (a).

Article 12. Every vessel may, if necessary in order to attract attention, in addition to the lights which she is by these Rules required to carry, show a flare-up light or use any detonating signal that cannot be mistaken for a distress signal.

^a Also, as regards Russian vessels, in the seas (excluding the Baltic) bordering the coasts of Russia.

Article 13. Nothing in these Rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by shipowners, which have been authorized by their respective Governments and duly registered and published.

Article 14. A steam vessel proceeding under sail only, but having her funnel up, shall carry in day-time, forward, where it can best be seen, one black ball or shape 2 feet in diameter.

Sound-signals for Fog, etc.

Article 15. All signals prescribed by this Article for vessels under way shall be given:

1. By "steam vessels" on the whistle or siren.
2. By "sailing vessels and vessels towed" on the fog-horn.

The words "prolonged blast" used in this Article shall mean a blast of from 4 to 6 seconds' duration. A steam vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog-horn, to be sounded by mechanical means, and also with an efficient bell.* A sailing vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog-horn and bell.

In fog, mist, falling snow, or heavy rain-storms, whether by day or night, the signals described in this Article shall be used as follows, viz. :—

- (a) A steam vessel having way upon her, shall sound, at intervals of not more than 2 minutes, a prolonged blast.
- (b) A steam vessel under way, but stopped and having no way upon her, shall sound, at intervals of not more than 2 minutes, two prolonged blasts, with an interval of about 1 second between them.
- (c) A sailing vessel under way shall sound, at intervals of not more than 1 minute, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.
- (d) A vessel, when at anchor, shall, at intervals of not more than 1 minute, ring the bell rapidly for about 5 seconds.
- (e) A vessel, when towing a vessel employed in laying or in picking up a telegraph cable, and a vessel under way, which is unable to get out of the way of an approaching vessel through being not under command, or unable to manœuvre as required by these Rules, shall, instead of the signals prescribed in subdivisions (a) and (c) of this Article, at intervals of not more than 2 minutes, sound three blasts in succession, viz. : one prolonged blast followed by two short blasts. A vessel towed may give this signal and she shall not give any other.

Sailing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals, but if they do not, they shall make some other efficient sound-signal at intervals of not more than 1 minute.†

Speed of ships to be Moderate in Fog, etc.

Article 16. Every vessel shall, in a fog, mist, falling snow, or heavy rain-storms, go at a moderate speed, having careful regard to the existing circumstances and conditions.

A steam vessel hearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

STEERING AND SAILING RULES.

Preliminary—Risk of Collision.

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk should be deemed to exist.

Article 17. When two sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, viz. :—

- (a) A vessel which is running free shall keep out of the way of a vessel which is close-hauled.
- (b) A vessel which is close-hauled on the port tack shall keep out of the way of a vessel which is close-hauled on the starboard tack.
- (c) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.
- (d) When both are running free, with the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.
- (e) A vessel which has the wind aft shall keep out of the way of the other vessel.

Article 18. When two steam vessels are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if not keep on their respective courses, pass clear of each other.

* In all cases where the rules require a bell to be used a drum may be substituted on board Turkish vessels, or a gong where such articles are used on board small sea-going vessels.

† Dutch steam pilot-vessels, when engaged on their station on pilotage duty in fog, mist, falling snow, or heavy rain-storms are required to make at intervals of 2 minutes at most one long blast with the siren, followed after 1 second by a long blast with the steam whistle and again after 1 second by a long blast on the siren. When not engaged on their station on pilotage duty, they make the same signals as other steamships.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; in other words, to cases in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own; and, by night, to cases to which each vessel is in such a position as to see both the side-lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course; or by night, to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead, or where both green and red lights are seen anywhere but ahead.

Article 19. When two steam vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

Article 20. When a steam vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam vessel shall keep out of the way of the sailing vessel.

Article 21. Where by any of these Rules one of two vessels is to keep out of the way, the other shall keep her course and speed.

Note.—When, in consequence of thick weather or other causes, such vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision. (See Articles 27 and 29.)

Article 22. Every vessel which is directed by these Rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 23. Every steam vessel which is directed by these Rules to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

Article 24. Notwithstanding anything contained in these Rules, every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Every vessel coming up with another vessel from any direction more than two points abaft her beam, i.e., in such a position, with reference to the vessel which she is overtaking that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these Rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 25. In narrow channels every steam vessel shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the starboard side of such vessel.

Article 26. Sailing vessels under way shall keep out of the way of sailing vessels or boats fishing with nets, or lines, or trawls. This Rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fairway used by vessels other than fishing vessels or boats.

Article 27. In obeying and construing these Rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above Rules necessary in order to avoid immediate danger.

Sound Signals for Vessels in Sight of one Another.

Article 28. The words "short blast" used in this Article shall mean a blast of about one second's duration.

When vessels are in sight of one another, a steam vessel under way, in taking any course authorised or required by these Rules, shall indicate that course by the following signals on her whistle or siren, viz.:—

One short blast to mean, "I am directing my course to starboard."

Two short blasts to mean, "I am directing my course to port."

Three short blasts to mean, "My engines are going full speed astern."

No Vessels under any circumstances to neglect proper Precautions.

Article 29. Nothing in these Rules shall exonerate any vessel, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of Rules for Harbours and Inland Navigation.

Article 30. Nothing in these Rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbour, river, or inland waters.

*Distress Signals.**

Article 31. When a vessel is in distress and requires assistance from other vessels or from the shore, the following shall be the signals to be used or displayed by her, either together or separately, viz.:—

In the daytime—

1. A gun or other explosive signal fired at intervals of about a minute.
2. The International Code signal of distress indicated by NC.
3. †The distant signal, consisting of a square flag, having either above or below it a ball or any thing resembling a ball.
4. A continuous sounding with any fog-signal apparatus.

*If a master of a vessel uses or displays, or causes or permits any person under his authority to use or display, any of those signals of distress, except in the case of a vessel being in distress, he shall be liable to pay compensation for any labour undertaken, risk incurred, or loss sustained in consequence of that signal having been supposed to be a signal of distress, and that compensation may, without prejudice to any other remedy, be recovered in the same manner in which salvage is recoverable. (Merchant Shipping Act, 1894, section 434 (2).)

†A further distress signal is provided in the International Code of Signals. It is a distant signal consisting of a cone point upwards, having either above it or below it a ball, or anything resembling a ball. This signal has not been sanctioned by Order in Council under the provisions of section 435 of the Merchant Shipping Act, 1894.

At night—

1. A gun or other explosive signal fired at intervals of about a minute.
2. Flares on the vessel (as from a burning tar-barrel, oil-barrel, etc.).
3. Rockets or shells, throwing stars of any colour or description, fired one at a time, at short intervals.
4. A continuous sounding with any fog-signal apparatus.

AIDS TO MEMORY in four verses, by the late Mr. THOMAS GRAY, C.B.

1. *Two Steam Ships meeting.*

**When both side lights you see ahead—
Port your helm and show your RED.**

2. *Two Steam Ships passing.*

**GREEN to GREEN—or, RED to RED—
Perfect safety—Go ahead!**

3. *Two Steam Ships crossing*

Note.—This is the position of greatest danger: there is nothing for it but good look-out, caution and judgment:

**If to your starboard RED appear,
It is your duty to keep clear;
To act as Judgment says is proper:—
To Port—or Starboard—Back,—or, Stop her.**

**But when upon your Port is seen
A Steamer's Starboard Light of GREEN
There's not so much for you to do,
For GREEN to Port keeps clear of you.**

4. *All Ships must keep a good look-out, and Steam Ships must stop and go astern, if necessary.*

**Both in safety and in doubt
Always keep a good look-out;
In danger, with no room to turn,
Ease her, stop her, go astern.**

APPENDIX F.

SIGNALS TO BE MADE BY SHIP WANTING A PILOT.

In the daytime.—The following signals, numbered 1, 2, 3 and 4, when used or displayed together or separately, shall be deemed to be signals for a pilot in the daytime, viz.:—

1. To be hoisted at the fore, the Union Jack, having round it a white border, one-fifth of the breadth of the flag; or
2. The International Code pilotage signal indicated by PT.
3. The International Code Flag S, with or without the Code Pennant over it.
4. The distant signal, consisting of a cone point upwards, having above it two balls or shapes resembling balls.

At night.—The following signals, numbered 1 and 2, when used or displayed together or separately, shall be deemed to be signals for a pilot at night: viz.:—

1. The pyrotechnic light, commonly known as a blue light, every fifteen minutes; or
2. A bright white light, flashed or shown at short or frequent intervals just above the bulwarks, for about a minute at a time.

If a master of a vessel uses or displays, or causes or permits any person under his authority to use or display, any of the pilot signals for any other purpose than that of summoning a pilot, or uses or causes or permits any person under his authority to use any other signal for a pilot, he shall for each offence be liable to a fine not exceeding twenty pounds. [Merchant Shipping Act, 1894, section 615 (3).]

APPENDIX G.**DEVIATION OF THE COMPASS.**

FOR MASTERS' CERTIFICATES FOR HOME TRADE PASSENGER SHIPS.

The candidate must answer in writing, on paper given him by the Examiner, all the following questions, numbering his answers to correspond with the numbers of the questions:—

1. When taking a Meridian Altitude, how do you know when the sun is on the Meridian; or in other words, when it is noon?
2. How does the sun bear (*true and magnetic*) when on the meridian of an observer in these latitudes (Home Trade Limits)?
3. What do you mean by deviation of the Compass, and how is it caused?

4. Having determined the deviation, how do you know when it is easterly and when westerly?
5. Supposing the sun when on the meridian bore by your Compass _____ what would be the deviation of that Compass for the direction of the ship's head at the time, the variation given on the Chart being _____?
6. How could you find the deviation of your Compass when in port, or when sailing along a coast?
7. Name some suitable terrestrial objects by which you could readily obtain the deviation of your Compass.
8. The bearing of two objects when in a line with each other was found on the Chart to be _____ magnetic; but when brought in a line on board they bore _____ by your Compass; required the deviation of your Compass for the direction of the ship's head at the time?
9. What means are there for checking the deviation of your Compass by night?
10. Supposing the North Star (*Polaris*) bore _____ by your Compass, what would be the deviation (approximately) of that Compass for the direction of the ship's head at the time, supposing the variation given on the Chart to be _____?
11. Do you expect the deviation to change? If so, state under what circumstances.
12. What is meant by the variation of the Compass, and what is the cause of it?

APPENDIX H.

(See Rule 67.)

EXAMINATION OF A MASTER OR MATE IN STEAM.

The examination is for the most part *prid rocs*, and extends to a general knowledge of the practical use and working of steam engines and boilers, and of the various valves, fittings, and pieces of machinery connected with them and of the way in which electric lighting is carried out on board ship.

Candidates must:—

- (a) Know the names and understand the uses of the various parts of engines and boilers, and their connecting pipes, valves, cocks, etc.
- (b) Have a thorough grasp of the construction of the steam engine and boiler, to enable them to understand the nature and importance of any defect which may be reported to them by the Chief Engineer.
- (c) Have a looking-on knowledge of what the principal repairs about engines, boilers and pipes are, and how these repairs are accomplished.
- (d) Be able to form an independent opinion as to a breakdown, and the consequent propriety or impropriety of proceeding under steam with temporarily repaired or defective machinery.
- (e) Understand how to estimate approximately the reduction of fuel required for reduced speed, and be able to satisfy themselves as to the sufficiency of the coal on board for the voyage.
- (f) Have an intelligent grasp of the general run of pipes and connections in the engine-room, the working of cocks, the opening and closing of cocks and valves, and know how mistakes of importance may be made and how best to guard against such mistakes.
- (g) Be capable of being left in charge of the feeding of a set of boilers, understand the working of the water gauge, and be able to guard against being misled by false indications of the gauge class.
- (h) Understand the operations of blowing down and surfacing, the reasons for such practices and the danger which may result from the neglect of them in certain circumstances.

A Master or Mate presenting himself for examination in Steam must be understood to have made up for his want of practical experience by reading about the steam engine. He ought, therefore, to show that he intelligently understands the rationale of its action. Under this head he should be able to state approximately the quantity of heat required in the formation of steam, the relation of "latent" heat to "sensible" heat, how much steam can be raised by the combustion of one pound of coal, what horse-power measure is, what indicated horse-power is, what is the action of the slide valve, the course of the steam through the engine, the advantage of working expansively, and how the expansive action is shown by the indicator diagram.

He should know the uses of the various parts of the engines and dynamos used for electric lighting, and how they and the cables are fitted in the hull; how wires are jointed, insulated and cased; why it is desirable that they should be led along places which are dry and accessible; what "short circuiting" is and what are the causes which produce it; what is its danger in coal bunkers and petroleum-carrying steamers; what are the uses of switches and cut-outs, and why it is so important to prevent short circuiting taking place.

Candidates will be required to give written answers to sixteen out of twenty questions taken from the Elementary Questions (printed in Appendix C of the Regulations relating to the Examination of Engineers: Exn. 1a) given on the sheets marked "Steam," or questions similar to these. These questions will be altered from time to time without notice. The twenty questions will not be difficult, theoretical, or book questions, but such as any man of ordinary capacity who has a fair amount of practical knowledge of the use of working of the steam-engine ought to answer.

Examiners will require all candidates to fill up a form, Exn. 15b and they will forward it to the Chief Examiner of Engineers with the report of the examination.

Masters and Mates may cancel questions A, B and C, but they should fill up the form for questions D, E, F and G, as evidence of their practical knowledge.

If a candidate refers to any book, paper or memorandum, or obtains information from another candidate or any other person during the examination, he will be treated as having failed, will forfeit his fee, and will not be allowed to be re-examined for a period of six months.

The Examiners will report, in the case of failure, the nature of the question or questions that decided the failure, or the point in the management of the engines or boilers in which the candidate was deficient.

Applicants for the voluntary examination need not necessarily have served on board steamships: all that is required is that they shall have a practical knowledge of the use and working of the steam engine.

Practical knowledge is best gained in the engine-room; and the examination of an officer who does not produce official evidence of service in steamships, and of experience of engines, must necessarily be more searching than in the case of one who produces evidence of such service and experience.

The answers to the Elementary Questions are frequently given by candidates as learned by rote from a book. Candidates should, therefore, be asked such *viva voce* questions as will necessitate answers in different words, so as to discover whether they have the root of the matter in them.

A large part of the *viva voce* examination should be conducted on board a steamer, preferably one with which the candidate is unacquainted. He should be told to look about and try to find out the arrangement of the machinery without assistance, and the Examiner should be in the engine-room to see that this independent examination is properly carried out. When the candidate reports that he thinks he knows the arrangement, the Examiner will question him on the uses of the parts, get him to point out the different cylinders, pumps, valves, condenser, etc.; also the dynamo, its field magnets, armature, commutators, brushes, cables, etc. The candidate must show that he understands the run of the pipes in the bilges, not necessarily that he has gone over every one of them, but he ought to be directed to trace, at least, one important range of pipes, and to thoroughly satisfy the Examiner that he could be safely trusted to manipulate the valves or cocks in connection therewith. It will not often be practicable for the candidate actually to work engines under steam, but he must satisfy the Examiner that he knows how to do so, and that he is aware of the precautions to be taken in regard to water in the cylinders, etc. It is most important that a candidate should show that, in the event of an accident depriving him of the assistance of Engineers, he knows what to do to safely take his vessel to an anchorage, or to stop the engines and proceed under sail alone.

The examination of a Mate in steam is the same as that of a Master. The knowledge required has no reference to the Mate's position.

The Mate may be examined, but such examination implies that the Mate may one day be a Master, when the possession of the knowledge will be an advantage to him in the discharge of his duties.

APPENDIX I.

(See Rule 26.)

SIGHT TESTS.

Details as to the conduct of the tests.

These tests must be conducted under the strict personal supervision of the Examiner. A careful record must be kept of all mistakes made by the candidate both in the form vision test and in the colour vision test.

Examiner must keep a record of all candidates passed by him for reference when required.

I.—FORM VISION TEST.

1. **Form vision test to be passed first.**—The first test which the candidate is required to undergo is the test for form vision, and until he has passed this test he must not be allowed to proceed further with the examination.

2. **Apparatus used.**—The form vision test to be used for all candidates is that conducted on Snellen's principle by means of sheets of letters.

3. **Object of the test.**—The object of the form vision test is to determine whether the candidate can reach a sufficient standard of visual acuteness, or, in other words, to find out whether his eyesight is good or bad.

4. **Standard of vision required.**—Every candidate for a first certificate of competency will be required to possess normal vision. With the exceptions indicated below (see paragraph 8), every candidate for a second or higher certificate will be required to possess normal vision.

"Normal vision" is defined, for the purpose of these Regulations, as ability to read correctly nine of the twelve letters in the sixth line and eight of the fifteen letters in the seventh line of a test sheet placed in a good light at a distance of 16 feet from the eye.

The candidate will have the option of using either eye separately or both eyes together.

5. **Spectacles not allowed.**—During the examination for form vision candidates must not be allowed to use spectacles or glasses of any kind, or any other artificial aid to vision.

6. **Method of testing.**—The test sheets should be hung on the wall, in a good light, but not in direct sunlight, at a height of five or six feet from the ground. The candidate should be placed at a distance of exactly 16 feet from the sheets, and exactly opposite them. This distance should be carefully measured, and should never in any circumstances be varied.

One of the sheets should then be exposed, and the candidate should be asked to read the letters on each sheet, beginning at the top and going downwards. Any mistakes which he makes should be carefully noted. If then it is found that he has read correctly at least nine letters in the sixth line and eight letters in the seventh line of a sheet, the candidate may be considered to have normal vision, and should be marked "passed" in the appropriate column of the form of application (Exn. 2 or Exn. 2A, as the case may be).

7. **Passing or failure.**—If at the conclusion of the test the candidate is found to reach the required standard, he may be considered to have passed, and the Examiner should proceed to test him for colour vision. If the candidate fails to reach the standard required for the certificate entered for, he should be tested with at least four sheets, and the Examiner should fill in a Form, Exn. 17b, and should forward it, with any remarks he may wish to make, to the Principal Examiner for his instructions as to whether the candidate is to be regarded as passing or as failing in form vision.

8. **Lower standard required in certain cases.**—Candidates who are in possession of certificates obtained before January 1st, 1914, may be regarded as passing in form vision if they can read correctly with both eyes at least five of the eight letters in the fifth line of a test sheet.

9. **Tests to be varied.**—The Examiner should take care, by varying the order of the test sheets and by every other means in his power, to guard against the possibility of any deception on the part of the candidate.

10. **Result of examination to be reported.**—The result of every examination in form vision should be reported, in the case of a candidate for a certificate of competency, to Government on Form Exn. 2, and to the Port Officer on Form Exn. 14; and, in the case of a candidate for the sight tests only, to Government on Form Exn. 2 A.

II.—COLOUR VISION TEST.

11. **Apparatus.**—A special lantern and a mirror have been provided for this test. The lantern should be placed directly in front of the mirror, so that the front part of the lantern is exactly ten feet from the mirror. Care should be taken that the lantern is properly placed, that is to say, the lights reflected in the mirror must show clearly when viewed through the rectangular aperture on the left of the lantern. The Examiner should always satisfy himself that these conditions are fulfilled before commencing the examination.

12. **Darkness adaptation.**—It is essential that a candidate should be kept in a room which is either completely or partially darkened for at least a quarter of an hour before he is requested to undergo this test.

Before the examination commences the Examiner must satisfy himself that the room in which it is conducted is so darkened as to exclude all daylight.

13. **Method of testing.**—The lantern supplied for the examination is so constructed as to allow one large or two small lights to be visible, and is fitted with 12 glasses of three colours—red, white and green. At the commencement of the examination the Examiner should show to the candidate a series of lights through the large aperture, and should require him to name the colours as they appear to him. Care should be taken in showing the white light to emphasise the fact that the light is not a pure white. If a candidate makes a mistake of calling this light "red" a proper red light should be shown immediately after and the candidate's attention directed to the difference between the two.

After a series of lights through the large aperture has been shown, the Examiner should make a complete circuit with the two small apertures, requiring the candidate to name the colours of each set of two lights from left to right. To prevent any possibility of the order in which the lights are arranged from being learnt, the Examiner should at least twice in each circuit go back a varying number of colours.

A record of any mistakes made with either the large aperture or the two smaller apertures should be kept on Form Exn. 17c in accordance with the instructions therein.

14. **Passing or failure.**—If a candidate with either the large aperture or the two smaller apertures of the lantern mistakes red for green or green for red, he should be considered to have "failed" in Colour Vision.

If the only mistake made by the candidate with the lantern, is to call the white light "red," and if after his attention has been specially directed to the difference between the two he makes no further mistake of this nature, he should be considered to have passed in Colour Vision.

If a candidate makes any other mistake with the lantern, i.e., if he calls white "red" repeatedly or red "white" at all, or confuses green and white, his case should be reported to the Port Officer and he should be told that the decision as to whether he is passed or failed, or a further examination is necessary will be communicated to him in due course. Pending the receipt of the Port Officer's instructions such a candidate should only be allowed to proceed with the remainder of the examination for a certificate of competency on the express understanding that the latter examination will be cancelled in the event of failure in the Sight Tests.

15. **Further examination and appeals.**—If in the cases covered by the preceding paragraph the Port Officer decides that a further examination is necessary, arrangements will be made for a special examination to be held and the third class travelling expenses necessarily incurred by a candidate in attending such an examination will be paid by the Government together with a subsistence allowance at a rate which will be notified to the candidate, but which will not in any circumstances exceed Rs. 5 for each day necessarily occupied in attending the examination. In these cases the above expenses will be paid whatever may be the result of the final examination.

If, however, on the report of the Examiner the Port Officer decides that the nature of the mistakes made shows conclusively that a candidate is so colour blind as to be unfit to hold a certificate, the candidate shall be considered to have failed.

In cases where, upon the report of the Examiner, a candidate is failed by the Port Officer, as well as in the cases covered by paragraph 14, Government will be prepared to allow a candidate who is dissatisfied with this decision to appeal for a special examination, but Government will not pay the travelling expenses of any such candidate unless he is reported by the Special Examiners conducting the appeal examination to have passed.

III.—REPORTS.

16. The result of every test in form or colour vision should be reported to the Government on the Form Exn. 2, and to the Port Officer on the Form Exn. 14, when the candidate is up for examination for a certificate of competency; and to the Government on the Form, Exn. 2A, when the candidate is up for examination in vision only.

All cases of failure should also be reported to the Port Officer on Form Exn. 17B, to which should be attached Form Exn. 17C, containing the record of any mistakes made with the lantern.

Every report relating to such an examination must be signed by the Examiner who conducted the examination.

From the marks assigned to Candidates in each subject such deduction will be made as the Civil Service Commissioners may deem necessary in order to secure that no credit be allowed for merely superficial knowledge.

Consistently with the limitations specified above Candidates are at liberty to name any of the foregoing subjects, provided that the maximum number of marks that can be obtained from the subjects chosen is limited to 6,000. If this maximum is exceeded by a Candidate's selection he will be required to indicate one of his subjects, the marks for which should, in his case, be reduced so as to bring his maximum marks within the prescribed limit. The marks so reduced will be subject to a correspondingly reduced deduction.

Moreover, if a Candidate's handwriting is not easily legible a further deduction will, on that account, be made from the total marks otherwise accruing to him.*

6. A list of the competitors shall be made out in order of their proficiency as disclosed by the aggregate marks finally awarded to each competitor, and in that order so many competitors, up to the determined number of appointments, as are found by the Civil Service Commissioners to be qualified by examination, shall be designated to be Selected Candidates for the Indian Civil Service, provided that they appear to be duly qualified in other respects. Should any Selected Candidate become disqualified, the Secretary of State for

India will determine whether the vacancy thus created shall be filled or not. In the former case the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a Selected Candidate.

7. Selected Candidates, before proceeding to India, will be on probation for one year at the end of which time they will undergo an examination, called the Final Examination, in the following compulsory subjects (b):—

	Marks.
1. Indian Penal Code	400
2. Code of Criminal Procedure	200
3. The Indian Evidence Act	200
4. Indian History	400
5. The principal vernacular language of the province to which the Candidate is assigned ...	400

The principal vernacular language prescribed for each province to which Candidates are assigned is as follows:—

For Bengal or Assam	Bengali.

For Bihar and Orissa	Hindustani.

For Bombay	Marathi.
(unless it is the candidate's mother tongue.)	
For Madras	Tamil or Telugu.
(at the option of the candidate.)	

In Hindustani the Candidate will be required to be acquainted with both the Persian and the Nagari character.

A Candidate assigned to Bengal or Assam, whose mother tongue is Bengali, must offer for examination Hindustani; a Candidate assigned to Bombay, whose mother tongue is Marathi, must offer for examination Hindustani; and a Candidate assigned to Madras, whose mother tongue is either of the languages shown against his province, must offer the other for examination.

8. Selected Candidates may, in addition, offer in the Final Examination one of the following optional subjects:—

	Marks.

2. Sanskrit	400
3. Arabic	400

No Candidate who offered Sanskrit or Arabic at the open competition, may offer the same language at the Final Examination; and only Candidates assigned to the Province of Burma may offer Hindustani as an optional subject.

9. In the Final Examination, as in the Open Competition, the merit of the Candidates examined will be estimated by marks (which will be subject to deductions in the same way as the marks assigned at the open competition), and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it. The examination will be conducted on paper and *visà vis*, as may be deemed necessary.

If any Candidate is prevented by sickness or any other adequate cause from attending such examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination.

10. The selected candidates will also be tested during their probation as to their proficiency in riding.

(b) Instructions, showing the extent of the examination, will be issued to Selected Candidates as soon as possible after the result of the Open Competition is declared.

The examinations in riding will be held as follows :—

(1) Shortly after the result of the Open Competitive Examination has been declared, or at such time or times as the Commissioners may appoint during the course of the probationary year.

(2) Again, at the time of the Final Examination, Candidates who may then satisfy the Commissioners that they are sufficiently at home in the saddle for the efficient performance of all the duties of the Indian Civil Service will be awarded marks ranging between 101 and 200 according to the degree of proficiency displayed, to be added to their marks in the Final Examination. Candidates who fall short of this adequate proficiency but show such minimum proficiency as is evidence that with a moderate amount of practice they can attain full proficiency, will receive marks ranging between 1 and 100; they will be allowed to proceed to India and will on their arrival there be subjected to such further tests in riding as may be prescribed by their Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of the Government.

A Candidate who fails at the end of the year of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding, will be liable to have his name removed from the list of Selected Candidates.

11. The Selected Candidates who, on examination, shall be found to have a competent knowledge of the subjects specified in Regulation 7, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, conduct during the period of probation, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Indian Civil Service, provided they shall comply with the regulations in force, at the time, for that service.

12. Persons desirous to be admitted as Candidates must apply on forms which may be obtained from "The Secretary to the Civil Service Commissioners, London," at any time after the 1st December, in the year previous to that in which the examination is to be held. No person will be admitted to the examination from whom the Secretary to the Civil Service Commissioners has not received on or before the 1st June (or if that date should fall on a Sunday or public holiday, then, on or before the first day thereafter on which their office is open), in the year in which the examination is to be held, an application, in the handwriting of the Candidate, on the prescribed form.

APPENDIX.

1. Any person who has joined since the 4th August 1914, the Army or Navy or Royal Marines or the Royal Air Force, or has rendered since that date actual military service in the Special Reserve or Territorial Force, Royal Naval Reserve or Royal Naval Volunteer Reserve, may, if eligible in point of age under the Regulations as they now stand for admission to the open competitive examination held in 1919, but over age in 1920, deduct from his actual age at the time of the open competitive examination held in 1920 :—

(a) The actual period of such service, if it has not exceeded three months.

(b) One year, if the actual period of service has exceeded three months. No candidate will be allowed to deduct more than one year from his actual age.

2. The same concession may also be granted to those who have been employed during the same period in connection with the armed forces of the Crown at home or abroad giving their whole time and under obligation to serve for the duration of the war or until their discharge, or for any period not terminable at their own option, provided that their employment be not on ordinary commercial terms, such as that of assistant paymasters, clerks, artisans, and the like.

3. The grant of the concession described in paragraph (2) will be at the discretion of the Civil Service Commissioners, whose decision in each case will be final. Candidates who contemplate applying for an age deduction under (2) will do well to apply to the Civil Service Commission for a ruling on their case.

4. Candidates to be eligible for the concessions in (1) or (2) must furnish an official certificate of the period and satisfactory character of their service, and if any doubt arise whether the service of any candidate is of the kind contemplated, the Secretary of State for India in Council reserves to the Civil Service Commissioners the right to decide the case upon its merits.

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements:—

(i) *Selected candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration.*

(ii) *Except in the case of persons continuing to receive scholarship allowances of equal or greater amounts from the Government of India an allowance amounting to £150 will be given to any candidate who passes his probation at one of the Universities or Colleges which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrews, and Aberdeen; the School of Oriental Studies, London Institution, Finsbury Circus; Victoria University, Manchester.*

This allowance will be paid to the selected candidate in four instalments on the following dates respectively:—December 24th, after his selection, March 25th, June 24th, and the date of his signing his covenant on being finally appointed to the service.

An allowance on account of passage to India will be paid to each newly appointed Civilian to the amount of £40, for passage to Calcutta, Madras or Bombay, and £50 for passage to Rangoon. These allowances will only be paid after production of evidence that the officer has engaged a First Class passage. An officer who prefers it can have a First Class passage taken for him by the India Office in lieu of receiving a passage allowance. Applications giving proposed dates of sailing should be made to the Secretary, Judicial and Public Department, India Office, London, S. W. 1.

The payment of each of the first three instalments will be conditional on the receipt, by the Secretary of State, through the Civil Service Commissioners, of a certificate that the candidate has fulfilled up to date the requirements of the authorities, and shown satisfactory conduct at the authorized University or College; the fourth and final instalment will be paid as soon as the selected candidate has signed his covenant, and for its payment no certificate from college authorities will be required.

The whole probation must ordinarily be passed at the same institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

(iii) *Each candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety, jointly and severally, to refund all moneys he may have received from the Secretary of State for India in the event of—*

(1) *his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Indian Civil Service, or*

(2) *his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.*

(iv) *All candidates obtaining certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force, they may be required to make towards their own pensions or for the pensions of their families. The stamps payable on these covenants amount to £1.*

(v) *The seniority in the Indian Civil Service of the candidates obtaining certificates will be determined according to the order in which they*

stand on the list resulting from the combined marks of the open competitive and Final Examinations, but may ultimately be affected by appointments made by the Secretary of State under the Temporary Provisions Act, 1915.

(vi) Candidates obtaining certificates will be required to report their arrival in India within such period after the grant of their certificates of qualification as the Secretary of State may in each case direct.

(vii) Candidates who fail to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected, and will not be allowed to present themselves for re-examination, unless it shall appear to the Secretary of State in Council, after reference to the Civil Service Commissioners, that such failure is due to circumstances wholly exceptional and beyond the control of the candidate.

INDIAN CIVIL SERVICE.

Syllabus of an Open Competitive Examination for the Indian Civil Service to be held in the year 1920, and of any other competition that may be held in combination therewith.

In view of the importance of legible handwriting in the public service, candidates are warned that the provision as to deductions for bad handwriting in these competitions will be strictly enforced.

Candidates are warned that full marks cannot be obtained on any paper unless the whole of it is answered, or, in cases where the number of questions to be answered is specified, unless the full number specified is answered.

English Composition.—An Essay to be written on one of several specified subjects.

Sanskrit Language and Literature.—Translation from Sanskrit; composition in Sanskrit; Sanskrit Literature, including the life, thought, and antiquities of Ancient India, together with such knowledge of history as bears upon the subject; questions on the Sanskrit Language (including questions on Philology).

Composition will be required in Classical Sanskrit alone; elsewhere Vedic Sanskrit is also included.

Candidates are expected to make a special study of the Seventh Mandala of the Rig-veda, but other Vedic hymns may also be set in the examination.

Arabic Language and Literature.—Translation from Arabic; set composition and free composition in Arabic; Arabic Literature, including the life and thought of the Arabs as shown in the literature, together with such knowledge of history as bears upon the subject; questions on the Arabic Language (including questions on Philology).

Greek Literature.—Questions on the Greek Language (including questions on Philology), Literature, and Antiquities.

Latin Literature.—Questions on the Latin Language (including questions on Philology) and on Roman Literature and Antiquities.

English Language and Literature.—The examination will be in two parts. In the one candidates will be expected to show a general acquaintance with the course of English Literature, as represented in the chief writers in verse and prose, between the reign of Edward III and the death of Queen Victoria. A minute and detailed knowledge will not be looked for in this part of the Examination; but its aim will be to test how far the candidates have studied at first hand the chief productions of the greatest English writers, and are acquainted with the leading characteristics of their thought and style, and with the place which each of them occupies in the history of English Literature.

The other part of the examination will relate to one of the following periods, which will follow each other year by year in rotation.

Period I: 1360 to 1600, Chaucer to Spenser.

Period II: 1600 to 1660, The later Elizabethans.

Period III: 1660 to 1744, The age of Dryden and Pope.

Period IV: 1744 to 1800. From the death of Pope to the death of Cowper.

Period V: 1800 to 1832, Nineteenth Century writers to the death of Scott.

Period VI: 1832 to 1892, From the death of Scott to the death of Tennyson.

The examination in this part will require from the candidates a more minute acquaintance with the history of the English Language and Literature, as illustrated in the chief works produced in each period, and will be based to a considerable extent, but by no means exclusively, on certain books specified each year by the Commissioners. The names and other indications placed beside the dates are intended to suggest the general character of the literary development of the period, and, consequently, the natural limits of the examination. All the works of Shakespeare and Milton, for example, will be regarded as falling within the period 1600 to 1660; all the works of Wordsworth and Coleridge within the period 1800 to 1832; all the works of Carlyle, Landor, and Macaulay within the period 1832 to 1892.

COMMUNIQUE.

The 9th September 1919.

THE question of revising the Indian Electricity Act, 1910, is at present under the consideration of the Government of India, and the several modifications which have been suggested are detailed in the statement following. Opinions in regard to these modifications and suggestions for any further additions or alterations to the Act that may be considered necessary or advisable, are invited. Opinions and suggestions should be forwarded to the Electrical Adviser and Electric Inspector to the Government of Bengal, 1, Haris Mukherji's Road, Bhowanipur, so as to reach him by the 1st October 1919.

C. P. WALSH.

Secy. to the Govt. of Bengal.

[Amendments to the Indian Electricity Act, 1910 (IX of 1910), proposed by the Government of India.]

Number of section in the Indian Electricity Act, 1910, which it is proposed to modify.	Proposed modifications.	Objects and reasons for modifications.
Section 2 (4) ...	To insert the word "single" before the word "consumer."	There is often uncertainty as to what exactly constitutes a "service line." If a given electric supply line serves more than one consumer, whether in one block of buildings or more than one, it is questionable, under the definition as it stands at present, whether such a line is a service line or a distributing main. Clause VII of the Schedule, however, lays down that a line erected at the request of two or more persons is a distributing main, and it is considered advisable to bring the definition into line with the Schedule and to make it clear that a service line connotes a line which serves one consumer only.
Section 3, sub-section (2), clause (a), sub-clause (ii).	To substitute the words "Director-General of Military Works" for the words "General Officer Commanding the Division."	This alteration has been incorporated at the request of the military authorities.
Section 3, sub-section (3).	To delete this sub-section ...	This omission is suggested with the object of delegating to local Governments full powers to grant licences without the intervention of the Government of India, and is in accordance with the spirit of the recommendations contained in paragraph 212 of the Report on Indian Constitutional Reforms.
Section 10 ...	To omit the words "with the previous sanction of the Governor-General in Council".	Ditto ditto.
Section 17, sub-section (1).	To omit the words "service lines immediately attached or intended to be immediately attached to a distributing main or."	It is considered undesirable to exclude service lines from the operation of this sub-section, as such lines are liable to affect telegraph lines to the same extent as any other electric supply lines.
Section 17, sub-section (2).	To delete this sub-section ...	This omission is consequential on the omission proposed in section 17, sub-section (1).

Number of section in the Ind. in Electricity Act, 1910, which it is proposed to modify.	Proposed modifications.	Objects and reasons for modifications.
Section 18, sub-section (3).	<p>To insert after the word "energy" the words "or interferes with any structure in connection therewith or with proper access to such structure."</p> <p>After the word "licensee" to insert the words "supported by a certificate in writing of the Electric Inspector that the tree falls within the meaning of this section."</p>	<p>These additions are intended to allow of the clearance of trees which interfere or are likely to interfere with any structure in connection with an "aerial line" or with proper access to such a structure, and to give the Magistrate or the Commissioner of Police the benefit of professional advice as to whether the removal of the trees is essential.</p> <p>The Government of India will consider the advisability of defining further the term "tree" on receipt of the opinions of local Governments.</p>
Section 20	<p>To add the following sub-section :—“(3) Where a consumer refuses to allow the licensee or any person authorised as aforesaid to enter his premises in accordance with, and to perform the acts specified by, sub-section (1) or sub-section (2), or fails to give facilities for such entry or performance, the licensee may forthwith cut off the supply to the consumer for so long as such refusal or failure continues, but no longer.”</p>	<p>At present it is possible for a consumer to evade payment for supply of current by refusing entry to his premises to the licensee, or to persons duly authorised by the licensee, thus preventing his meter from being read. It is considered desirable that the licensee should have power to cut off the supply of current to the consumer in such a case.</p>
Section 21	<p>To add the following as sub-section (2) :—“Subject to the provisions of sub-section (1) a licensee may, with the previous sanction of the local Government, make conditions not inconsistent with this Act, or with his licence or any rules made under this Act, to regulate his relations with persons who are for the time being or who intend to become consumers; and with the like sanction the licensee may add to, alter or amend any such conditions; and any conditions made by a licensee without such sanction shall be null and void :—</p> <p>Provided that any such conditions made before the day of 19 shall, if sanctioned by the local Government on application made by the licensee before such date as the local Government may by general or special order fix in this behalf, be deemed to have been made in accordance with the provisions of this sub-section.”</p>	<p>The object of this addition is to prohibit the enforcement of unauthorised conditions of supply for which there is no legal sanction, while permitting licensees to issue by-laws with the previous approval of the local Government.</p> <p>The date to be entered in the proviso will be approximately the date on which licensees may be deemed to have had notice of the amendment here proposed.</p>
Section 23	<p>To re-number existing sub-section “(2)” as sub-section “(3).”</p> <p>To introduce as sub-section (3) to this section, sub-clauses (a), (b) and (c) of clause X of the Schedule to the Act as below :—</p> <p>(3) In the absence of an agreement to the contrary, a licensee may charge for energy supplied by him to any consumer—</p> <p>(a) by the actual amount of energy so supplied; or,</p> <p>(b) by the electrical quantity contained in the supply; or,</p> <p>(c) by such other method as may be approved by the local Government.</p> <p>Also to add a new sub-section “(4)” as below :—</p> <p>(4) Notwithstanding anything in sub-section (3) the charges made by a licensee may be based upon, and vary in accordance with, the consumer's load factor or his total consumption of energy, or the hours at which the supply of energy is required.”</p>	<p>Under section 3 (3) (f) a local Government is authorised to add to, vary or except the provisions contained in the Schedule to the Act in applying them to particular licensees, and consequently a licensee may be refused power to charge consumers on the systems indicated in clause X, sub-clauses (a), (b) and (c) of the Schedule. The Government of India consider that licensees should have legal authority to adopt any of the systems indicated in the Schedule and that they should be authorised further to take into account “load factor” when determining their systems of charges. The term “load factor” is well understood in its technical sense and is universally used, but the Government of India will consider the advisability of defining it on receipt of the opinions of local Governments.</p>

Number of section in the Indian Electricity Act, 1910, which it is proposed to modify.	Proposed modifications.	Objects and reasons for modifications.
Section 24	<p>... To omit the words "in respect of the supply of energy to him."</p> <p>In the proviso, to add after the words "given by the licensee" the words "and where the consumer has deposited with the Electric Inspector the amount of the licensee's charges or other sums in dispute and continues so to deposit the amount of the licensee's subsequent charges for energy."</p>	<p>With regard to the proposed omission it was recently held in a law suit that the words in section 24 "or any other sum due from him to a licensee in respect of the supply of energy to him" were merely a paraphrase of the words "any charge for energy" preceding the above quoted words, and that they were therefore redundant. There are various charges connected with the supply of current which are due from a consumer to the licensee other than those for the actual current consumed. It is considered that the proposed omission will make the original intention of section 24 of the Act clear. The addition is proposed, as at present consumers of a certain class will go to any length to avoid paying their dues, and by appealing to the Electric Inspector they obtain an extra period of grace, by the end of which their liabilities may be considerable. Commercial opinion considers that the sum in dispute and any further amounts as they accrue should be deposited as a guarantee of good faith. The Government of India agree with this view and consequently propose the addition to the proviso.</p>
Section 26, sub-section (d).	<p>To omit the words "on the basis of the previous supply" and to add the following proviso at the end of this sub-section :—</p> <p>"Provided that, before either the licensee or the consumer applies to the Electric Inspector under this sub-section, he shall inform the other party of his intention so to do."</p>	<p>The omission is proposed as cases arise (as for example, where premises are occupied or fitted for electricity for the first time) in which there has been no previous supply, and it is considered that in such cases the Electric Inspector should be left free to settle the matter on the basis of the best data available. The addition is necessary since it has been held that a consumer may, without informing the licensee, refer the question of the accuracy of a meter to the Electric Inspector for decision. Licensees object to this procedure as they are not given an opportunity of rectifying the defect, and the proposed addition hence appears reasonable.</p>
Section 28	<p>... To delete the first proviso and the word "also" in the second proviso.</p>	<p>It is proposed to omit the first proviso under this section, as neither the expense nor the delay involved in obtaining a licence would ever, in actual fact, justify action under it and it is considered undesirable to fetter the discretion of local Governments in the matter.</p>
Section 30, sub-section (1).	<p>To add the following after sub-clause (iii)—</p> <p>"(iv) which the local Government declares, by general or special order, to come under the provisions of this section."</p>	<p>This addition is proposed with the object of bringing within the scope of this section certain industrial concerns such as tea, coffee and indigo estates that are not "factories" within the meaning of the Indian Factories Act, 1881, but in which electrical installations are in operation.</p>
Section 32, sub-section (2).	<p>To substitute "local Government" for "Governor General in Council" and "it" for "he."</p>	<p>This change is proposed in accordance with the spirit of the recommendations contained in paragraph 212 of the Report on Indian Constitutional Reforms.</p>

Number of section in the Indian Electricity Act, 1910, which it is proposed to modify.	Proposed modifications.	Objects and reasons for modifications.
Section 33, sub-section (1).	To substitute the words "give notice to such authorities in such form and within such time as the local Government may by general or special order direct" for the words "within twenty-four hours of the occurrence, send to the Electric Inspector, and also to the District Magistrate, or in a Presidency town or Rangoon, to the Commissioner of Police, notice in writing."	<p>Under this sub-section accidents involving loss of life or personal injury have to be reported both to the Electric Inspector and to the District Magistrate or Commissioner of Police. In the case of Mines where electrical energy is used, accidents have, under the Mines Rules, to be reported to the Chief Inspector of Mines and to the District Magistrate. The Chief Inspector of Mines being also an Electric Inspector may thus be served with two sets of notices, under the two Acts, the provisions of which are not identical: and likewise a Magistrate in a mining district where the Chief Inspector of Mines has jurisdiction may be served with two sets of notices of the same accident.</p> <p>This duplication is unnecessary and may sometimes result in confusion. In the case of accidents in mines where electricity is used the question also arises whether the Chief Inspector of Mines or the Electric Inspector under the local Government is the authority to whom the report should be made. It is, therefore, considered that the authority to whom accidents should be reported and the manner in which such reports should be made, should be regulated by general or special directions of the local Government.</p>
Section 34, sub-section (1).	To substitute the words "local Government" for the words "Governor General in Council."	This change is proposed in accordance with the spirit of the recommendations contained in paragraph 212 of the Report on Indian Constitutional Reforms.
Section 35, sub-section (3).	To delete this sub-section ...	This omission is consequential on the addition it is proposed to make to existing sub-section (4), clause (a).
Section 35, sub-section (4).	To renumber this sub-section as sub-section "(3)."	Consequent on the omission indicated above.
Section 35, sub-section (4) re-numbered as sub-section (3), clause (a).	Before the word "define" to insert the words "determine the number of members of any such Board and the manner in which they shall be appointed, and."	This addition is proposed with the object of enabling commercial and other interests to be more strongly represented on the Board when necessary, the local Government being given full discretion as to its constitution.
Section 36, sub-section (3).	To add at the end of this sub-section the words "or, if the Governor-General in Council or the local Government shall so direct, to an Advisory Board."	This addition is proposed as it has been held that an appeal to the local Government against the decision of its Electric Inspector is, in practice, ineffective, as the Electric Inspector is, as a rule the adviser of the local Government in the matter. It is considered that, in important cases, local Governments will be well advised to refer the matters in dispute to an Advisory Board.
Section 37 ...	After clause (k) of sub-section (2) to add the following clause— "(l) provide for any matter which by this Act is to be prescribed."	This is consequential on other amendments proposed.

Number of section of the Indian Electricity Act, 1910, which it is proposed to modify.	Proposed modifications.	Objects and reasons for modifications.
Section 39 ...	For the words "and the existence of artificial means for such abstraction shall be <i>prima facie</i> evidence of such dishonest abstraction" to substitute the words "and the owner of any premises for the benefit of which the existence of artificial means of abstraction is proved shall be presumed, until the contrary is proved, to be guilty of dishonest abstraction."	These changes aim at throwing all responsibility for theft of energy and cognate offences on to the "consumer" as defined in section 2(c). At present it is necessary, but generally impossible, to prove the actual culprit who made the illegal connection: he is usually only the agent of the offending consumer, who alone benefits by getting his bills fraudulently reduced.
Section 44, sub-section (d).	<p>(1) After the word "punishable" to insert the words "with imprisonment for a term which may extend to six months or."</p> <p>(2) To substitute the words "one thousand" for the words "three hundred."</p> <p>(3) To insert the words "or with both" after the word "rupees" where it occurs for the first time.</p> <p>(4) To substitute the words "one hundred" for the word "thirty."</p> <p>(5) For the words "be <i>prima facie</i> evidence" to substitute the words "raise a presumption."</p>	These modifications are proposed, as the present penalties are considered inadequate. The Government of India understand that a fine of Rs. 300, the maximum that can be imposed by this section, is insufficient, as thefts of energy to a much larger monetary value occur. Whereas it would frequently pay consumers to be mulcted to the full extent of Rs. 300, imprisonment and the heavy fines proposed would, it is thought, act as real deterrents.
Section 51 ...	To substitute the words "local Government" for the words "Governor General in Council" in two places.	See objects and reasons against section 32 (2).
Section 53, sub-section (1), clause (a).	For the words "the Public Works Department" substitute the words "any such department as may be prescribed by the Governor General in Council or the local Government."	This alteration is proposed as it is anticipated that the administration of the Indian Electricity Act, 1910, will, in course of time, be transferred from the control of the Public Works Department.
Section 55 ..	After the figure "18" to add the words "or Section 34, sub-section (2)."	This proposal is to enable local Governments to delegate to Electric Inspectors their powers under section 34(2) in regard to the issue of orders calling on users of electricity to remedy dangerous arrangements or defective lines. These being purely technical matters, local Governments will probably be ready to leave the decision in the hands of their technical advisers.
THE SCHEDULE.		
Clause VI, sub-clause (1).	To substitute the words "the area of supply" for the words "one hundred yards from any distributing main."	This alteration is suggested as it is considered that a consumer should be able to obtain a supply of current even, though his property may be situated beyond the limit of 100 yards prescribed by this sub-clause, but within the area of supply of the licensee, provided the consumer is willing to pay for such portion of the service line as lies beyond 100 feet from the licensee's distributing main and for that portion which lies within the consumer's property, <i>vide</i> sub-clause (b) of the 1st proviso of this sub-clause.
Clause VI, sub-clause (2).	In line 3 after the words "paid for by" to add the words "and have consequently become the property of."	In sub-clause (2) it is not laid down that the consumer has any right in the service line for which he has paid, and when he leaves his premises he cannot always obtain a refund of the depreciated value from the incoming consumer or the licensee. The proposed addition recognises the right of a consumer who has paid for his service line.

Number of section the Indian Electricity Act, 1910, which is proposed to modify.	Proposed modifications.	Objects and reasons for modifications.
Clause VII, sub-clause (1).	<p>(1) To amend the marginal note by adding the word "further" before "Provision" substituting "service lines" for "electric supply lines" and deleting the last three words.</p> <p>(2) To delete the first sentence down to and including the words "receive such supply."</p> <p>(3) For the words "in any such street any electric supply line" to substitute the words "any service line in any street in which distributing mains have not already been laid down or placed."</p> <p>(4) To substitute "service line" for "electric supply line" wherever the latter occurs in this clause.</p>	<p>This clause at present regulates procedure for cases not falling within clause VI, but by the amendment of clause VI (1) all applications within the "area of supply" will be dealt with under that clause. In consequence of that amendment, the only part of clause VII, sub-clause (1), which will be effective is that beginning with the words "the licensee."</p>
Clause VII, sub-clause (2).	To delete this sub-clause ...	Consequential on the proposed amendment of section 2 (1).
Clause VIII, sub-clause (1).	To substitute the words "area of supply" for "distance of one hundred yards from any distributing main."	Consequential on modifications proposed in sub-clause (1) of clause VII.
Clause X	<p>(1) To transfer to section 23 of the Act the first portion of this clause ending with "Local Government."</p> <p>(2) To make the first proviso into sub-clause (2) omitting the words "provided, first that" and the word "no"; and after the words "local Government" where they occur in the first proviso to add the words "in accordance with section 23, sub-section (3) of the Indian Electricity Act, 1919."</p> <p>(3) To make the second and third provisos sub-clauses (2) and (3) omitting the words "provided, secondly, that" and "provided, thirdly that."</p>	This amendment is proposed for the objects and reasons noted against the proposed amendment of clause VI (1).
Clause XI	<p>(1) To add the words "and minimum" between the words "Maximum" and "charges" in the marginal note.</p> <p>(2) To re-number clause XI as sub-clause (1) of clause XI, and in the first proviso to substitute the words "if an Advisory Board, after enquiring into all the circumstances of the case, so recommends" for the words "after such inquiry (if any) as it thinks fit."</p> <p>(3) To introduce a new sub-clause (2) as below :— "A licensee may charge a consumer a minimum charge for energy of such amount and determined in such manner as may be fixed by his licensee; and such minimum charge shall be payable notwithstanding that no energy has been used by the consumer during the period for which such minimum charge is made."</p>	<p>These modifications are consequential on the proposed amendment of section 23 of the Act.</p> <p>Objection has been taken to the existing clause in that local Governments have powers under section 7 of the Act to purchase an undertaking, and it has been strongly represented by the Electrical Industry that the power conferred by the first proviso of this clause and that conferred by section 7 should not be exercised by the same authority. It is considered that a compulsory reference to an Advisory Board will meet this objection.</p> <p>This sub-clause is introduced to remove doubt as to whether a minimum charge is leviable in cases where no energy has been used. The law at present provides for maximum charges only. Most licences also contain provision for minimum charges. In some provinces it is held that a minimum charge is leviable only where some energy, however little, has been used within the period covered. Generally, however, the established custom is followed, that if no energy is used the minimum charge can nevertheless be made.</p>
Clause XVI, sub-clauses (2) and (3).	<p>(1) In sub-clause (2) to substitute the words "approved by the local Government" for the words "which shall not be smaller than sixteen inches to the mile."</p> <p>(2) In sub-clause (3) to delete the words "which shall not be smaller than sixteen inches to the mile" and for the words "which shall not be smaller than one inch to eight feet" to substitute the words "approved by the local Government."</p>	<p>The scales laid down in sub-clauses (2) and (3) are impossible for any but small undertakings and are seldom used in practice. It is suggested that it should be left to the local Government to fix the scale.</p>

Messrs. T. E. Thomson & Co. and the Tukvar Tea Co., Ltd., discontinued their subscription during the year 1918.

13. The daily average cost of diet for residents and staff was Rs. -2-1-10 as compared with Re. 1-11-9 in the year 1917.

The increase is due to the following facts :—

(a) Increase of residents in the third class in 1918, mostly soldiers, who came here for a change, and are said to have consumed more food than ordinary men who are sick and convalescent.

(b) Rise of price for provisions on account of the war.

(c) Non-revision of the scale of charges for inmates. The scale of charges is the same as it was before the war. This was not done as the scheme for the reorganisation of this institution was pending sanction of Government.

(d) Discontinuance of the system of calling tenders from the merchants. The house-keeper having taken the responsibility of purchasing provisions cheaper without the tenders which she failed to do.

14. The accounts of the Eden Sanitarium were audited by Messrs. Viney and Thurston, Chartered Accountants of Calcutta.

15. Explanation of increase and decrease—

RECEIPTS :—

(a) The fall of receipts in the first class is due to the admission of less number of people in that class in 1918.

(b) The increase of receipts in all other classes is due to the admission of more people in those classes in the year 1918.

(c) The increase of receipts against "Miscellaneous" is due to the credit in this account of proceeds of concerts organised by Sister Mary Frances, S.C.J.B.

(d) The increase of receipts against X-Ray is due to the receipt of two donations of Rs. 1,000 each from the Darjeeling Improvement Fund and the Darjeeling Municipality for overhauling the X-Ray apparatus.

(e) The decrease of receipts against "Nurses' Fees" is due to the fact that the Eden Sanitarium nurses got less calls in outside cases during the year 1918.

(f) The fall of receipts for medical attendance is due to the treatment of less number of people in the hospital.—*vide* the remarks in paragraph 6.

(g) The fluctuations against other heads of receipts are trifling and call for no remarks.

EXPENDITURE :—

(a) The decrease of expenditure against "Free beds" is due to the stay of patients in this institution for less number of days as compared with the year 1917.

(b) The increase of expenditure against "Nurses' salaries" is due to the raising of the pay of nurses from Rs. 70 to Rs. 100 with effect from 1st April 1918.

(c) The cause of increase of expenditure against "Diet" has been fully explained in paragraph 13.

(d) The increase of expenditure against the heads "Fuel" and "Stationery and Printing" is due to the rise of the price of the articles.

(e) The increase of expenditure against "Advertisement" is due to the insertion of casual advertisements in the newspapers of other provinces to invite more first class people as the rooms in the first class were not fully occupied in the year 1918.

(f) The increase of expenditure against the head "Repair and Construction" is due to certain structural alterations, such as enlargement of the chapel, making the changes in the nurses' dining room and also in the third class bath rooms, etc., sanctioned by the committee in their meeting of the 11th June 1919.

(g) The increase of expenditure against "Medical Stores" is due to the abnormal rise of the price of medicines. Certain medicines were indented from England as they could not be procured here.

(h) The increase of expenditure against the head "Establishment" is due to the entertainment of a separate ayah for the hospital on Rs. 18 per month and also to the increase of pay of the whole of the menial staff sanctioned by the Committee in their meeting on the 14th May 1918.

(i) The increase of expenditure against "Lighting" is due to the smaller receipt of lighting charge from the first class inmates, owing to the fall of numbers in that class during the year 1918.

(j) The decrease of expenditure against "Rates and Taxes" is due to the less consumption of water and consequently less payment of municipal tax for using extra water during the year 1918.

(k) The less expenditure on "free medicines" is due to the treatment of fewer number of patients in the hospital. In the year 1917 136 persons were treated in the hospital, whereas in the year 1918 105 persons were treated.

(l) The fluctuations against other heads of expenditure are trifling and call for no remarks.

16. General Remarks—The debit of Rs. 2,277-13-6 in Table F on account of depreciation on furniture caused the loss on paper amounting to Rs. 2,258-14-1. If this amount is excluded it will be seen that the institution paid its way during the year 1918 in spite of the rise of the price of provisions and other matters mentioned in paragraph 13 and also the fall of receipts from the inmates of the first class.

17. The sanitarium was officially visited by the following officers during the year 1918 :—

(1) The Hon'ble Major-General W. H. B. Robinson, I.M.S., Surgeon-General with the Government of Bengal,	2 visits.
(2) The Rev. Mr. P. H. Crozier,	1 visit.
(3) The Rev. Father E. Van Tichelen, S.J.	1 ..
(4) F. L. Peters, Esq.	1 ..
(5) B. G. Gwyther, Esq.	1 ..
(6) E. A. Wernicke, Esq.	1 ..

18. Sister Mary Frances, C.S.J.B., was in charge of the linen room, library and nurses, and thanks are due to her for the help which she rendered to the Superintendent.

19. The other staff of the institution worked entirely to the satisfaction of the Superintendent.

20. The committee held 7 meetings in the year 1918 against 7 in the year 1917, and the most important subject which was dealt with was the scheme for the reorganisation of the Eden Sanitarium and Hospital. It is to be noted that according to figures for previous years the income of the institution will approximately be one-ninth of the present income if only cases on medical certificates are admitted.

(3) Should a patient in an injury or poison case die, or should a hospital patient die from unnatural causes, the medical officer shall inform the police at once in order that due investigation may be made.

(4) The bodies of patients dying in hospital from natural causes shall be handed over to the relatives or friends of the deceased for disposal. Should no relative or friend claim the body within 24 hours, the body shall be disposed of under local arrangements.

(b) The manager shall at once report to the officer in charge of the Saidpur police-station in form D, the fact of the grant of leave to, or the absence without leave of, any settler.

The pass shall be printed in English and in the vernacular of the district in triplicate forms bearing consecutive page numbers. The original shall be kept by the manager, the duplicate shall be handed over to the settler going on leave, and the triplicate shall be sent by post or in any other way to the officer in charge of the police-station within the limits of which the destination of such member lies. Reference section 20, sub-section (2), clause (g).

(i) The routes to be taken on the journeys to and from his destination shall be specified in the pass, and the settler shall travel by no other route.

(ii) He shall report himself to the village headman or chaukidar of every village, or in the case of a presidency or municipal town, to the officer in charge of the nearest police-station or outpost at which he may halt for the night on the journey.

MEMORANDUM of agreement made this 22nd day of August 1919 between the Burmah Oil Co., Ltd. a joint stock company with limited liability, a Company incorporated under the English Companies Act and having its registered office at Glasgow in Scotland (hereinafter called the Company) of the one part and the Secretary of State for India in Council (hereinafter called the Secretary of State) of the other part.

Whereas for the purpose of the construction of a pipe line the Company has applied to the Government of Bengal for the acquisition under the provisions of the Land Acquisition Act 1894 of the piece or parcel of land containing 56 acre or thereabout situate in the village of Patenga in the district of Chittagong and more particularly described in the schedule below.

And whereas the said Government of Bengal being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public has consented to acquire on behalf of the Company the piece or parcel of land hereinbefore described.

And whereas the said Government of Bengal has required the Company under the provisions of section 41 of the above mentioned Act to enter into the agreement with the Secretary of State hereinafter contained. Now this Indenture witnesseth that it is hereby agreed and declared as follows:—

1. On demand the Company shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered paid or awarded or to be tendered paid or awarded by the Collector under the Land Acquisition Act 1894 or by the Court to which a reference under Part III of the said Act may be made, or by the Court or Courts to which an appeal from the award of the said Court may be preferred, and all costs, charges and expenses of the proceedings in the aforesaid Courts, or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

4. The said land shall be held by the Company for the purposes of such a work as is hereinbefore mentioned and without the sanction in writing of the said Government of Bengal first had and obtained for no other purpose whatsoever.

5. The said construction of a pipe line shall be completed (and fully equipped in all respects ready for use) within one year from the date on which possession of the said land shall have been given to the Company.

6. Should the said construction of a pipe line not be completed (and fully equipped in all respects ready for use) within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal, or should the said land at any time thereafter cease for a period of 12 consecutive months to be held and used, or cease to be required for the purpose or purposes provided for in the foregoing fourth clause, then and in any such case, the said Government may summarily re-enter upon and take possession of the said land, and thereupon the interest of the Company in the said land shall absolutely cease and determine.

7. On taking such possession the said Government may sell or otherwise deal with the said land as it may think proper. Should the said Government sell the said land, the said Government, after deducting the expenses incurred in connection with the said taking of possession and with such sale, shall pay the proceeds to the Company. Should the said Government, on taking possession, decide not to sell the land, it shall repay to the Company all sums received from the Company in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent.), but will not repay any sums paid and received on account of costs, charges and expenses.

8. Should any dispute or difference arise touching or concerning the subject matter of this agreement or any covenant clause or thing herein contained the same shall be referred to the said Government of Bengal and the opinion and decision of the said Government upon such dispute or difference shall be final and conclusive and binding on the parties hereto.

Department, cited in the margin, revised scales of pay for the members of the Engineer establishments employed in the Public Works Department and State Railways were promulgated, together with certain measures of reorganization consequent thereon. The Government of India have lately had under consideration the question of the adequacy or otherwise of these scales, and they have arrived at the conclusion that, under present conditions, the existing rates of pay are insufficient. The Governor General in Council, with the approval of His Majesty's Secretary of State for India, is, therefore, pleased to sanction the following revised scales of pay with effect from the 30th August 1919, the date upon which the Secretary of State's orders upon the subject were received in India. They are not applicable to engineers employed on State Railways, whose case is separately under consideration.

Superintending Engineers.—Rs. 1,750—100—2,150 for both Imperial and Provincial Services

Chief Engineers.—Rs. 2,750—125—3,000 for both Imperial and Provincial Services.

2. The increments will be given for approved service only, but after the first increment has been admitted by the local Government or Administration under which the officer is serving, subsequent increments may be drawn on the date on which they are due and may be admitted in audit without sanction of higher authority, provided that the local Government or Administration has not issued an order withholding the increment in any particular case, and subject to the provisions of paragraph 3 below.

3. Pay on the junior scale will be drawn by officers holding charges of less importance than a divisional charge, but no such officer will be allowed to draw more than the pay of the 8th year of service on the junior scale unless he is reported to be fully qualified for the charge of a division.

4. Pay on the senior scale will be drawn by officers holding charges of not less importance than the charge of a division.

5. Permanent service rendered in the ranks of Chief and Superintending Engineers will count towards increments, except in the case of officers promoted to the rank of Superintending Engineer before their seniors in the ordinary line on special conditions as regards relative seniority.

6. The initial salary which each officer now in the service will draw under the new scales of pay will be determined by his local Government. In determining the initial pay under the new scales it should be understood that, though local Governments are accorded full power to fix the pay of any officer within the maximum admissible for his length of service, no officer whose promotion has been retarded in the past is by reason of length of service entitled to claim a higher rate of pay under the new scales than that admissible to the officer immediately above him in the seniority list.

Ordered that this Resolution be forwarded to the local Governments, Administrations and officers noted below for information, and that it be published in the *Gazette of India* for general information.

No. 13603 Mis.—The 14th November 1919.—The Governor in Council is pleased to make the following revised rules for the regulation of appointments in the clerical service of the Secretariat of the Government of Bengal and certain Government offices in future in supersession of all previous rules issued on the subject.

C. F. PAYNE,

Secy. to the Govt. of Bengal.

Rules for the regulation of appointments in the clerical service of the Secretariat of the Government of Bengal.

THE clerical service of the Secretariat of the Government of Bengal is divided into two divisions—the Upper Division and the Lower Division.

UPPER DIVISION.

2. The Upper Division of each department is divided into six grades thus:—

						Rs.
I Grade	400
II	"	300
III	"	250
IV	"	200
V	"	150
VI	"	125

There are local allowances of Rs. 100 attached to certain of the posts of Head Assistant.

3. Vacancies which occur in the Upper Division of each department will be filled in succession by the following methods:—

- (a) Selection of suitable candidates from the yearly nominations made by the Commissioners of Divisions and others for the Provincial Executive Service, the Police Service, the Subordinate Civil Service, or the Excise and Salt Service and from among other candidates for these services, whom the Chief Secretary has marked "as deserving of consideration for a Secretariat appointment." The indispensable qualification for an appointment in the Upper Division under this rule will be that the candidate must have passed the B.A. Examination or its equivalent, and preference will be given to those who passed with Honours.
- (b) Selection of suitable Europeans or Eurasians. The educational attainments required of such candidates will be the Intermediate Examination, the High School Pass Examination, the Senior Cambridge Local Examination, the Cambridge Senior School Certificate Examination or a certificate that the candidate has passed the final examination of the advanced Commercial Classes. In this case preference will be given to graduates.
- (c) Promotion from the Lower Division.

No clerk in the Lower Division, however, has, as a matter of right, any claim to promotion in the Upper Division, which will be given strictly according to merit.

Every third vacancy in the Upper Division will be filled up by method (c) after all the assistants who were recruited previous to April 1910 and are considered fit for promotion to the Upper Division have been provided for in that Division.

4. For the purpose of the selection of candidates under rule 3 (b), the Director of Public Instruction shall be asked to submit, in consultation with the authorities of European colleges and schools, the names of two or three candidates for each vacancy who possess the qualifications prescribed. From among these, a selection will be made by the Secretaries at a meeting.

5. Candidates selected under rules 3 (a) and 3 (b) will be on probation for one year, during which they will be given a subsistence allowance of Rs. 75 per month, which will be enhanced to Rs. 100 after one year's approved service. Candidates selected under rule 3 (c) will be on probation

for one year, during which they may be given the full pay of the lowest grade or any less allowance which may appear to the department concerned to be suitable.

LOWER DIVISION.

6. The pay of the clerks in the Lower Division of the Secretariat is Rs. 50 rising to a maximum of Rs. 125 by an annual increment of Rs. 3 in 25 years, subject to approved service, with an efficiency bar at the stage of Rs. 80 (Rs. 100 in the case of the clerks who are already employed in the Secretariat). The bar will apply in the case of those clerks who are employed on purely routine work, such as despatcher, sorter, recorder, indexer, diarist, inter-departmental clerk, file-keeper, etc.

In recognition of long service in the Lower Division a personal allowance of Rs. 25 a month may be granted to clerks who have been in receipt of Rs. 125 for at least three years and have not received promotion to the Upper Division, although their work has been specially meritorious. This concession will not, however, be given as a matter of course but is intended to reward exceptional cases.

7. The vacancies which occur in the Lower Division of the departments of the Secretariat will be filled up by means of a competitive examination. In special cases, as laid down in rules 14 and 15, appointments may be made by nomination.

8. The examination will be held in the month of August of each year. The arrangement for the examination will be made by the Board of Examiners, Fort William, who will be assisted by paid examiners, and will act in communication with the Financial Secretary to the Government of Bengal.

9. Candidates will be required to produce evidence that they have been through a complete secondary school course. In the case of Europeans and Anglo-Indians, applicants may be accepted who have obtained the elementary school certificate and have taken the supplementary commercial course prescribed by the European Schools Code. Every candidate must submit before the 15th July a written application for permission to appear at the examination.

10. The application under the last rule shall be in the form given in

FORM.

- (iii) In case the candidate has been educated at a school in which students' good conduct registers are kept, and in case a year has not elapsed since he left school, an extract from the register relating to the candidate for the last year of his attendance at school, certified by the head master. In other cases a certificate that the candidate is of good moral character is required from the head of the institution in which he has last been educated, or from some respectable householder to whom he is well known in private life, and who is himself known to a District or Subdivisional Magistrate, or to the head of some Government office, this last fact being certified by the countersignature of the officer in question.

- (v) A statement whether the candidate has appeared at any previous clerkship examination, and, if so, in what year.

11. There will be a preliminary test in dictation and handwriting and a *vivâ voce* examination in English and general knowledge which the candidate must satisfy. The examination in these subjects will not be competitive, but marks will be assigned for the purpose of testing efficiency. Papers of candidates will be examined as soon as possible after the examination, and the examiners will require any candidate, who fails to obtain two-thirds of the marks in each subject or to pass the *vivâ voce* examination, to withdraw from further examination. The remaining subjects will be—

	Marks.
(1) English, including commercial correspondence, letter drafting and <i>précis</i> writing (two papers). The syllabus will be that of the Government commercial classes and the marking will be stringent	100

Typewriting (speed test, 35 words a minute)	75

No candidate will be credited with marks in any subject in which he fails to get one-fourth of the full marks.

12. As soon as practicable after the examination, the Board of Examiners will report the result to the Financial Secretary to the Government of Bengal. The report will contain the names of all the candidates in order of merit, and subject to their being adjudged fit on the results of the examination, the exact dates of their births and the number of marks obtained by each candidate in each subject. The candidates will then be offered, in order of merit, their choice of the various vacancies, and they will be appointed accordingly, subject to any arrangement which the Financial Department may find necessary in consultation with the department concerned, with special reference to rule 15. Any vacancy occurring after the examination and before the first day of the following April will be offered through the Financial Department to the remaining candidates in the list in the same way. Vacancies occurring after the 1st April in any year will be reserved for competition at the examination in the ensuing August.

13. Each selected candidate will be placed on probation for 12 months. His allowance during this period will be Rs. 40 per month.

GENERAL.

14. The head of an office will retain the power of appointing men of special ability or aptitude to any post in the office when such a post cannot be filled in the ordinary way.

15. (1) The head of an office will also reserve the power of appointing suitable Muhammadans to either the upper division or the lower division. In the case of the upper division of the Secretariat every third appointment in each office made under rule 3 shall ordinarily be given to a Muhammadan, provided he possesses the educational qualifications required by rule 3(a). In the lower division of the departments of the Secretariat and attached offices every third appointment in each office shall ordinarily be given to a Muhammadan who possesses the educational qualifications required by rule 9 and furnishes the evidence required by rule 10. The assistance of recognised Muhammadan Associations and that of the Assistant Director of Public Instruction for Muhammadan Education should be utilised in securing qualified candidates for appointments in either division. In the lower division such selection shall be made only when there is no suitable Muhammadan candidate in the competitive examination to whom the post can be offered.

(2) Until the proportion of Muhammadans in the various offices reaches one-third, the claims of qualified Muhammadan candidates shall be considered in filling up all vacancies.

16. If at any time during the period of probation, or at its close, the probationer's work is not considered satisfactory by the head of the office in which he is employed, he may be discharged and will have no claim to either gratuity or compensation. If, however, he was admitted from another

office he may be reverted to his former appointment, or if this is not practicable, transferred to another appointment on the same pay.

17. Every probationer, before appointment, will be required to produce a statement showing to whom he is related or connected in the office in which he desires to serve. He must state the precise relationship or connection and certify that his statement so far as he knows, is correct and complete. If any wilful inaccuracy is subsequently detected in this declaration, the person making it will be liable to be discharged from Government service.

18. Promotion of clerks in the upper division is regulated by seniority and merit combined, but in the higher grades more importance will be attached to merit.

19. Every appointment is made subject to the production of a medical certificate from the Presidency Surgeon, who is entrusted with the duty of examining candidates for appointment in the particular office to which the probationer has been appointed.

Special Endowment Rules.

(a) Scholarships for European boys.

1. The income of this Special Endowment shall be applied in payment of scholarships for male British subjects of pure European blood ordinarily resident in Bengal, or coming to Bengal, for the purpose of residing there, or otherwise definitely connected with Bengal, including the children of persons, resident in or connected with Bengal though such children may not for the time being be in Bengal. Preference shall be given in cases of equal merit to candidates from or connected with Calcutta.

2. The object of such scholarships is to provide for or promote or advance the higher general or professional or technical education of the recipient and is not intended to provide for the ordinary school education of young children.

3. The recipients of the scholarships shall be selected by the Administrator in manner herein provided.

4. The Administrator shall use such means as he shall think reasonable and at such cost as he shall think fit, having regard to the funds available, to find suitable candidates for the scholarships and may if he considers necessary invite applications by advertisement and by circularising European schools in Bengal or otherwise.

5. The Administrator shall consider all applications and any information which he may receive as to suitable recipients, and may offer a scholarship to any person without formal application by or on behalf of such person.

6. Recipients shall be selected with reference to the following considerations. Selection shall be restricted to those who appear to the Administrator to be likely by age, ability, physical qualifications, and social circumstances to justify the opportunity provided, and preference shall be given, other things being equal, to a candidate whose parents or relatives are prepared to contribute reasonably to his education in the United Kingdom. The scholarships shall be tenable at a university or medical school or Inn of Court or technical institute, or some other suitable institution in the British Isles. As far as possible selection shall be restricted to candidates whose age will be about the normal age of entry to the course or institution proposed.

7. The scholarships may vary in amount and length of tenure according to the course proposed to be taken by the recipient and having regard to the support or contribution offered by the recipient's relatives and any scholarship may vary in amount from year to year, but a scholarship shall not be less than £150 or more than £240 in any one year, plus passage money to the United Kingdom and on return to India on satisfactory completion of the course, and (if necessary) a contribution towards initial expenses, and shall be tenable in ordinary cases for four years, but this period may

be reduced or extended for special reasons in any case. The Administrator shall be further empowered to make advances on loan to selected scholars towards initial expenses or unforeseen expenses at any stage of their course on such terms as regards security and repayment as he may think fit, having regard to the circumstances and prospects of the recipient. Provided always that the Administrator may forego the repayment of any such advance or any part thereof if satisfied that the recipient is unable to repay the amount or that it has become impracticable to recover the same.

8. The Administrator shall be satisfied as to the European origin of the candidates and may call for such evidence as he considers reasonably necessary in each case and his decision shall be final.

9. The amounts awarded for scholarships shall be paid out as far as possible in like manner to that adopted by Government for Government scholarships.

10. Scholarships shall be held subject to good behaviour and to the recipient remaining a British subject, and so long only as the recipient shall continue the course for the purposes of which the scholarship was granted.

11. The Administrator shall not be bound to award any scholarships in the absence of suitable candidates.

B.—Scholarships for European girls.

1. The foregoing rules of Special Endowment A shall *mutatis mutandis* apply for scholarships for female British Europeans, provided that in normal cases the age of the recipient on selection should not exceed 23 years, but this limit may be relaxed in special circumstances if the Administrator thinks fit.

C.—Scholarships for Domiciled Community.

1. The income of this special endowment shall be applicable for providing scholarships or grants for boys and girls of the Domiciled Community in Bengal (preference being given to inhabitants of Calcutta) or for procuring apprenticeships for such boys and girls, or otherwise providing for their advanced education or professional or business training, such scholarships to be held or apprenticeships to be followed in India or elsewhere.

2. The rules of Special Endowment A, so far as the same shall be applicable for the Domiciled Community, shall apply to this special endowment with such variations as are hereinafter contained.

D.—Primary School for Indian Boys.

1. The object of this special endowment is to provide, equip and maintain a primary school for Indian boys in Calcutta without distinction of creed, caste or denomination.

2. Any land or premises purchased for the school shall be taken in the name of the Treasurer.

3. If at any time and from time to time it shall appear desirable for any reason to remove the school to other premises the Administrator may contract for the sale of the school premises for the time being, and thereupon the Treasurer in pursuance of such contract as bare Trustee thereof shall convey the said premises to the purchaser thereof as the Administrator shall direct, and the sale proceeds, after payment of all costs

and expenses in connection with the sale, shall be received by the Treasurer and the capital money of this special endowment so received with any other part of the said capital money may again be expended in acquisition of premises, building and equipment as aforesaid.

4. The Administrator may, instead of purchasing any premises, take on lease any suitable land or premises (with or without buildings), such lease to be taken in the name or names of such person or persons on behalf of the school as the Administrator may select who are willing to act, and in any such case the Administrator shall pay the rent, rates, taxes and any other outgoings for which the lessee or lessees would be liable out of the income of this special endowment, and shall out of such income keep such lessee or lessees indemnified from and against any such outgoings and any costs and expenses in connection with such lease. Any such lease may be sold, transferred, surrendered or cancelled by direction of the Administrator, and another or other lease or leases taken in lieu thereof. The terms of any lease shall be settled by the Administrator. The proceeds of sale or surrender of any such leasehold shall be treated in like manner to the sale proceeds mentioned in paragraph 3 of these special rules.

5. In the event of any premises being taken on lease as aforesaid, if without buildings, the Administrator may expend such capital sums for buildings and equipment of the school as he shall think fit, and if with buildings he may expend such capital sums in alterations, repairs and fittings and equipment as he shall think fit, and may subsequently expend further capital sums in like manner as aforesaid. The Administrator may also expend such capital sum or sums as he may think fit by way of premium or *salami* for any lease or as consideration for surrender thereof.

6. The said school shall be managed and controlled by such authority and in such manner as the Administrator after consultation with the Corporation of Calcutta shall decide, but shall be conducted as and for a primary day school in accordance with the rules and regulations of the Education Department of the Government of Bengal for the time being in force.

7. The appointment and dismissal of the teaching staff and of all servants, caretakers and other employees shall be made by the school authorities, subject at all times to the control of the Administrator if he shall think it necessary to interfere therein.

8. The expenses of the school, including repairs or insurance, shall be paid from the income of the residue of the said special endowment fund and from any income arising from other sources such as donations, grants-in-aid or school fees.

9. The school authorities may charge such fees to scholars as may be approved by the Administrator.

10. The Administrator shall see that proper accounts of all receipts and expenditure are kept by the school authorities and are submitted to him at regular intervals.

11. In the event of there being a greater number of scholars desirous of being taught in the said school than the school can accommodate the selection of scholars shall be made in such manner as the Administrator shall prescribe.

12. The Administrator shall direct the Treasurer to set apart from the income of the said special endowment such proportion thereof as he shall think proper to be accumulated for repairs to the school premises, and such proportion shall be set apart accordingly and may from time to time be expended by the Administrator on repairs as occasion shall arise.

13. The Administrator shall direct the Treasurer to set apart from the income of the said special endowment such proportion thereof as he shall think proper to be accumulated and invested as a sinking fund for replacement of the school buildings and equipment upon the same being destroyed or worn out, such contribution to the sinking fund to be continued until a sufficient sum, in the opinion of the Administrator, shall have been accumulated, and being recommended and continued for so long as may be necessary upon the sinking fund or any part thereof being required to be expended, and such proportion shall be set apart and the accumulations thereof from time to time invested by the Treasurer. The income of such sinking fund may be applied in increasing the Fund or towards the general expenses of the school as the Administrator may think fit. As and when

occasion shall arise the said sinking fund shall be expended by the Administrator in the replacement of any buildings or equipment which shall have been destroyed or become unserviceable or worn out.

14. If funds permit more schools than one may be founded and maintained, and in that event the foregoing rules shall apply to each such school.

E.—Primary Schools for Depressed Classes.

1. The object of this special endowment is to provide and maintain primary schools in villages adjoining Calcutta for the children of the classes officially recognised as "Depressed Classes."

4. Part of the capital money of this special endowment may from time to time be expended in founding schools in like manner as in the Indian boys' primary school special endowment rules, at the discretion of the Administrator, and the income of the residue for the time being shall be applied towards the upkeep of the schools. It is intended that about Rs. 15,000 shall be used for capital expenditure, but this sum may be exceeded or reduced as the Administrator shall think fit according to the anticipated income available from all sources.

5. The schools of this special endowment may be for either boys or girls or for both.

6. The Administrator may frame such rules as in his opinion will ensure the reservation of these schools for the classes for whom they are intended. Provided that such rules may permit the admission of a small percentage of children of other castes or classes.

F.—Technical Scholarships for Students of the Civil Engineering College, Sibpur.

1. The object of this special endowment is to provide scholarships for past and present students of the Sibpur Engineering College for the purpose of completing or advancing the education or training of such students, either in the British Isles or in India, or in other British possessions.

2. The rules for the special endowment for scholarships for male British European subjects shall *mutatis mutandis* so far as the same may be applicable apply to this special endowment, with such additions and alterations as appear below.

3. Recipients of scholarships shall be selected by the Administrator in consultation with the Principal of the Sibpur Engineering College. Regard shall be had to the ability, energy, physical qualifications and age of candidates, and also to the industrial and engineering needs of India and to the course of training or study proposed to be undertaken by each candidate, and preference shall be given to candidates intending to return and work in India, but this shall not be an essential condition to the selection of recipients.

4. Scholarships may be granted in one sum or spread over a number of years, or may be applied towards apprenticing a recipient or as a premium on placing him with some engineering or manufacturing firm, including railway companies. Scholarships may include passage money from and on return to India as well as entrance fees to colleges or institutions or any other special expenditure.

5. In the event of the Sibpur Engineering College ceasing to be carried on for any reason or being removed from Bengal this special endowment fund shall be applied in or towards the furtherance of engineering instruction and training in any of its departments in such manner as the Local Government in consultation with the donor (if then still in India) shall decide.

in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such promissory notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the

time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as Government shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

(vi) The said promissory notes shall be absolutely payable in any event and the amount thereof shall be absolutely forfeited upon such default as before mentioned; and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or, whether there shall be a loss on such re-sale or not.

(viii) No tender of money, Bank of Bengal receipts, or public securities on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause (v) on the fifth day following the day of sale, will be afterwards accepted: provided always that money so subsequently tendered may be taken in payment of the said promissory note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. (v) and No. (vi).

(ix) The opium advertised for sale shall be paid for not later than 3-30 P.M. of the fifteenth day after the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(x) Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorising the delivery of single lots or of a different number of lots or chests, whether more or less than the number of lots or chests ordinarily required to be included in each certificate or order.

(xi) No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(xii) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a promissory note would otherwise be taken under the fifth of these conditions.

(xiii) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government, superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bona fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 4,500 specified in the second of these conditions.

(xiv) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of opium not exceeding altogether ten lots, provided always that there remain a sufficient number of lots of the opium to complete the said ten.

(xv) In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

5. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Government of Bengal:—

No. 1.—Certificate of the opium advertised for sale.

No. 2.—Report of the examination of such opium.

6. The public are hereby informed that in providing the investment of the opium manufactured at the Ghazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Ghazipur Factory, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison from the despatches, on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

7. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Governor in Council.

THE GOVERNMENT DIPLOMA IN ACCOUNTANCY OF THE SYDENHAM COLLEGE OF COMMERCE AND ECONOMICS, BOMBAY.

Instructions to candidates for the Diploma.

[The Regulations referred to are the Regulations for the award of the Diploma published on pages 2515-16 of Part I of the *Bombay Government Gazette* of the 23rd October 1919.]

Regulation No. 4.—

(A) *Examinations equivalent to Matriculation.*—Examinations recognized by an Indian University as equivalent to the Matriculation or Entrance examination of that University will be recognized as such by the Accountancy Diploma Board under this regulation. If the candidate has studied for one or more terms in a College affiliated to an Indian University, a certificate to that effect signed by the Principal of that College will be accepted as proof of the candidate's eligibility for the Diploma course. The previous orders of the Board must be secured by the candidate in other cases.

(B) *Attendance certificate.*—The attendance ought to be in an institution specially recognized by the Accountancy Diploma Board for purposes of this Diploma. The candidate is required to have attended three-fourths of the number of days on which lectures were delivered in each of the two academic years. Should his attendance in either of the two years have fallen short of three-fourths, that particular year will not be counted as a portion of the two years' attendance prescribed by this regulation. If he has attended the prescribed number of lectures in each of two academic years, but has not been certified as fit to present himself for the examination, he will not be required to attend lectures for a third year, but will merely be required to satisfy the Principal about his fitness to appear for the examination, and to submit his application through the Principal. He may undergo practical training in accounts during such third year, and such training will be counted as a portion of the three years' training prescribed by regulation 12 (b).

(C) The fee of Rs. 50 must reach the Secretary to the Accountancy Diploma Board, 65, Apollo Street, Fort, Bombay, on or before 31st January. Fees paid in will on no account be refunded.

Regulation No. 5.—

Under this regulation, an undergraduate may, in lieu of attending lectures for two years as prescribed by regulation No. 4, receive practical training in accounts for two years. He must apply to the Board for the recognition of such practical training and secure the orders of the Board before applying for the examination; the number and date of such order must be quoted in the candidate's application for the examination.

Regulations 6 and 13.—

When the holder of a temporary auditor's certificate applies for the examination under regulation 6 or for the Diploma under regulation 13, the period for which the auditor's certificate was granted must not have expired. An application from such a candidate submitted after the expiry of the period for which the certificate was granted will not be accepted by the Board.

Regulation 12.—

Practical training.—Every candidate entering on the course of practical training prescribed by this regulation must submit to the Accountancy Diploma Board an application for the recognition of such practical training in the prescribed form, copies of which can be had at the office of the Board, Apollo Street, Bombay; such applications must be submitted within sixty days of the commencement of the practical training.

The practical training must be under a Chartered or an Incorporated Accountant or a certified auditor, working as a Public Accountant. It is immaterial whether the candidate has paid a premium for such training or is in receipt of a salary. It is essential that he should be a full-time apprentice and should not be engaged in any other work during the usual office hours.

Chartered and Incorporated Accountants may take and train apprentices without the previous permission of the Government. The holder of a permanent (whether restricted or unrestricted) auditor's certificate granted by a local Government may take and train apprentices, provided he is specially empowered in that behalf by the local Government of the Province where he is practising. The mere fact that he holds a permanent auditor's certificate will not empower him to take apprentices.

The apprenticeship may be served partly under one and partly under another practising accountant, provided it is in each case reported to and recognized by the Accountancy Diploma Board.

Regulation No. 12 (b).—

The practical training in accounts prescribed by this regulation may be (1) partly before and partly after, or (2) wholly before, or (3) wholly after the candidate passes the Diploma examination of this Board. The course prescribed for an undergraduate covers five years, viz., two years as a student of a recognized institution, plus three years' apprenticeship. The practical training in accounts, if any, received by an undergraduate during

his two years' attendance at a recognized institution will, therefore, not be reckoned as a portion of the three years' apprenticeship prescribed by this regulation.

Regulation 12 (c).—

At least two out of the three years' apprenticeship prescribed for graduates must be served after they become graduates.

Number of Apprentices.—No practising Accountant will hereafter be authorised to take and train more than *two apprentices at a time*. This restriction will not apply to candidates who have already commenced their practical training.

Auditor's Certificate.—No permanent unrestricted Auditor's certificate will hereafter be granted by any local Government or Administration to a person who does not hold the Government Diploma in Accountancy of the Sydenham College of Commerce and Economics, Bombay. Holders of the Diploma have to apply for a permanent unrestricted Auditor's certificate to the local Government of the Province where the candidate received his practical training for the Diploma.

By order of the Accountancy Diploma Board,

K. S. AIYAR, B.A. F.S.A.A., *Secretary*.
